Gold Seal CONGOLEUM ART-RUGS

$15.95 9 by 12 Feet

These are Genuine Gold Seal Congoleum Rugs—the very same rugs that you see advertised for several dollars more than our low prices. Every rug is of finest quality. Perfect in every way. They are not "seconds."

Congoleum Rugs Cost Less at Ward's

Every housekeeper knows that Gold Seal Congoleum Rugs are cleaner and more sanitary than woven rugs or carpets. But did you realize that you can buy these fine rugs for so little money?

We are offering these rugs in the season's newest patterns at a price several dollars less than is usually asked. But remember—these rugs have not been cheapened in any way. Materials and workmanship are the same as always. Our low price is simply the result of our going direct to the manufacturers and making a special contract for many thousands of these rugs to be delivered as fast as they could make them. And we paid cash. Naturally, on the deal we made a great saving; and we believe in passing our savings on to our customers.

Patterns are reproductions of expensive woven rugs. Their bright, cheerful colors will add beauty to kitchen, bath room, pantry or hall. At this low price no floor or unsightly bare space should remain uncovered.

No More Scrubbing or Beating

Gold Seal Congoleum Rugs are easy to clean and keep clean. An occasional light mopping is all they ever need. Dirt cannot penetrate the firm, smooth, waterproof surface. Seamless; hug the floor without fastening, and never curl up. Made with a felt base covered with a special paint which does not crack. Each rug comes to you fresh and clean, in a separate dustproof package. And every rug bears a double guarantee—one from the manufacturer and one from Ward's. You are sure to be satisfied.

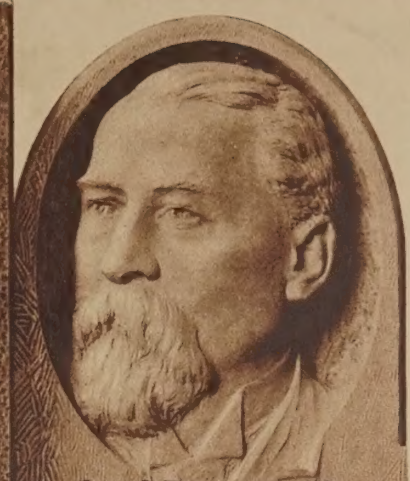
Satisfaction Guaranteed or Your Money Back

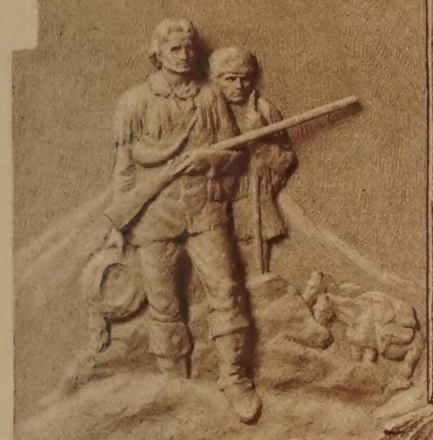
Copyright 1924, Montgomery Ward & Co.

A. Montgomery Ward, who founded Montgomery Ward & Co. in 1872 and originated the 52-year-old Guarantee we present on this page.



Our Guarantee

It is our intention that every article in this book shall be truthfully described and be exactly as pictured.



Therefore we guarantee everything you buy from us to be satisfactory to you in every detail and to reach you in perfect condition.

You take no risk whatever in sending us your order, for unless you are completely satisfied with the goods and with your saving, you may send back anything you buy from us and we will promptly return your money and all transportation charges you have paid.

MONTGOMERY WARD & CO.

George R. Thorne, partner of Mr. Ward, who helped to mold the policy of honest dealing this Company has so faithfully followed.

IT IS JUST AS TRUE TODAY

WE REPRINT with pride the old policy of Montgomery Ward & Co., as first laid down by A. Montgomery Ward, the founder of this business. This simple, common sense policy of Mr. Ward's is just as true today as it was many years ago. And it is today as conscientiously followed by Montgomery Ward & Co.

Mr. Ward's Policy on the Cheap Goods Question

Reprinted from one of Montgomery Ward & Co.'s Early Catalogues

"When the quality of any article is sacrificed to the point where it will not satisfy its purchaser it becomes worthless, and no matter how low the price, the purchaser is justified in harboring a grievance against the merchant who made the sale.

"If a person, through either ignorance or poor judgment, desires to invest in shoddy, second-rate merchandise, it becomes the duty of my firm to protect him or her . We have enjoyed the confidence of our customers for 26 years [this was in 1898] and I will not take advantage of them now by selling them anything that I know will not prove a profitable investment.

"Undoubtedly many persons know the risk they assume and are satisfied to make the experiment, but I cannot sanction my firm catering to their trade, and much as I dislike to lose a customer, I know that in the end they will see the folly of their methods, and in time will restore their patronage to my firm.

"This far-sighted policy has always been the key-note of this firm, and has not been in the least influenced by the cheap goods epidemic, so much in evidence during the past seven years. The ever-growing trade we enjoy proves that, after all, the people of the country are not such fools as some merchants and manufacturers seem to think they are.

"Our buyers are instructed to get the quality first, and then think about the price. We want your confidence and respect—we also want your trade, and we believe that our well-known reputation for honest goods at honest prices should appeal to you more than a glittering something-for-nothing proposition. Remember,—'all is not gold that glitters.'

"We shall continue in the future as in the past to handle only the better grades of merchandise—the kind that will please you even if it does appear at first glance to cost a trifle more. You can render us a great favor by explaining our policy to any of your friends or neighbors with whom you may happen to discuss our business."

We want you to know the kind of a house you are trading with. We want you to know our principles of honest dealing and honest merchandise.

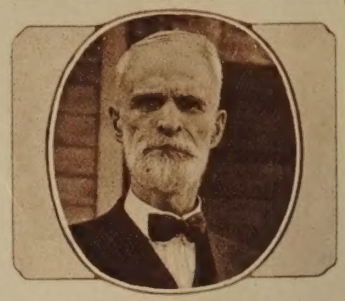
We want you to know that for Fifty-Two Years we have tried conscientiously to follow the principles laid down by the founder of this business. Mr. Ward's policies are still our policies. They are just as true, just as carefully followed today as they were a half century ago. We never sacrifice quality to make a low price.

Our Customers' Page

Mr. Sebastian Hahn

"The very first furniture we bought after our marriage came from Montgomery Ward & Co.," said Mr. Hahn, "and it gave us such good satisfaction that since that time we have bought practically everything we use in the house and on the farm from Ward's. I pay cash for what I buy and buy where I can do the best. Have found that Montgomery Ward & Co. cannot be beat for price or for quality of goods, and I am always glad to say a word for the house that has been so fair and saved me so much money."

The residence of Mr. Hahn is a beautiful country place about one mile southwest of Coffeyville, Kan. Upon it there is one of the largest barns in that part of the state. He has three farms of 430 acres in all, all of which are fenced with Montgomery Ward & Co. wire, and the gasoline engine, rotary pump, bath fixtures, farm implements, household and kitchen furniture, as well as all clothing, for both men and women, came from Montgomery Ward & Co.



Mr. and Mrs. Hahn have three children, two girls and one boy, all in school. And Mr. Hahn says, "We are going to start them out the Ward Way."

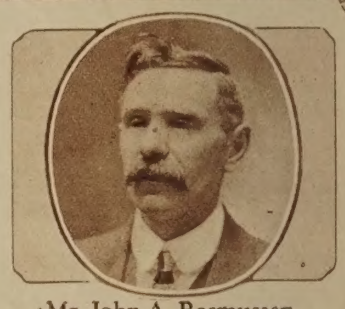
Mr. Joslin was born in Iowa in 1844 and has lived there ever since. His father had settled in Jones County in 1837. The Joslin family was the third to settle in that county.

Mr. Joslin has been one of our good customers for 52 years and in that time has ordered many different kinds of merchandise, sending us hundreds of dollars. He has visited our store many times. The fur robe shown in the picture was bought at Ward's 25 years ago. It has been in almost constant use and still is in good condition. Mr. Joslin says Montgomery Ward & Co. has saved the farmers of this country millions of dollars. He is a strong booster for Ward's.

Mr. J. T. Joslin

"In 1872, when I was shipping live stock to Chicago," said Mr. Joslin, "I sent my first order to Ward's. That was when both Mr. Ward and Mr. Thorne were active in the business. I have dealt with Ward's ever since that time and have always felt that things have been satisfactory. The hundreds of dollars which I have sent there have been well spent. Ward's always has lived up to the Golden Rule principle laid down by Messrs. Ward and Thorne. 'Satisfaction Guaranteed or Your Money Back'."

Mr. J. D. Vaughn



"I have a family of eight children, some now in homes of their own, and all Ward's customers," writes Mr. Vaughn. "I have tried to buy where I could get the best for the most reasonable price, and that has been at Ward's for the past 31 years. I have traded some with other mail order houses, but like Montgomery Ward & Co. the best. I had the pleasure of visiting your Kansas City house several years ago and while there I bought a suit of clothes, one of the best I ever owned."

Mr. Vaughn sent his first order to Montgomery Ward & Co. in May, 1892, almost 32 years ago. It consisted of a Hocking Valley corn sheller, along with a few smaller articles. Mr. Vaughn has been trading with us ever since. He tells us he is still a regular and satisfied customer, that he finds our merchandise exactly as described and that when we say it is of the best he never looks around for anything better. One statement in particular was of very great interest: "You are just as anxious to refund or adjust as you are to sell your goods. I have had few complaints, which were always adjusted to my satisfaction."

The picture below shows part of the Rasmussen ranch, and we are very proud of the fact that almost all of the equipment came from Montgomery Ward & Co. The 14-inch windmill on its 50-foot tower, the feed mills in the grain house, the farm machinery, several miles of stock fence, house furniture, and even the paint on the house and ranch buildings came from Ward's. Such continued buying of large orders from one house could only result from complete satisfaction with the price and quality of the goods and service rendered. Mr. Rasmussen further remarked, "We knew Montgomery Ward & Co. meant what they said in their Guarantee."

Mr. John A. Rasmussen

"We bought practically all our supplies from Ward's, because we could save money and we found we could trust them." Mr. Rasmussen was referring to the time in 1885 when at the age of about ten years, he came with his parents from their home near Copenhagen, Denmark, to a section of ranch land near Wasco, Oregon. The original landholding was gradually built up until it comprised 800 acres. After 31 years of ranch life Mr. Rasmussen has retired and moved to Hillsboro, Ore.

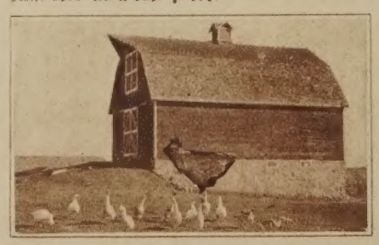
Mr. D. L. Cover

Mr. Cover has kept a diary of his every day life for years and he finds entered there the record of his first order from Montgomery Ward & Co., 35 years ago. This was for an organ for his little daughter. She still has the organ in her home and her daughter, who is finishing high school, plays on it today. Mr. Cover writes, "I will say I have never in these long years bought merchandise of any kind from Montgomery Ward & Co. that was not of first quality and that has not given perfect satisfaction."

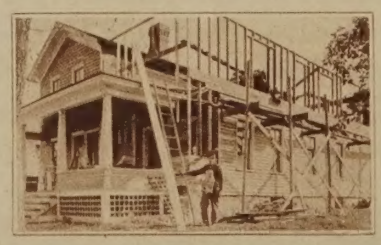
Mr. Cover, who farms near Iuka, Illinois, raised a good crop of corn in 1923 and the cultivator shown in the picture, which was purchased from Ward's 28 years ago, helped him to raise it. The plow and harrow, as well as this cultivator, have all been in use every year since the date of their purchase, and when the neighbors borrowed them they had nothing but praise for the good work they were able to do with them. His granddaughter plays now on an organ he bought from Ward's 35 years ago. It was the first of his many purchases. Mr. Cover says he has received square and honorable treatment during all the years since he sent us his first order.

Leaving Kokomo, Indiana, in 1853, Mr. Purvis came to Kansas in 1876 and settled near Castleton. Mr. Purvis says he landed in the county with a yoke of cattle and $5 in money, but he went to work and in a short time was able to buy 150 acres of good land. His farming was successful and he added to his land holdings, so that at one time he had title to over 600 acres. Mr. Purvis has been a highly successful business man and for ten years was president of the Castleton State Bank. He has now retired to a very beautiful little country place. The picture below was taken recently and shows Mr. Purvis and his fine looking barn.

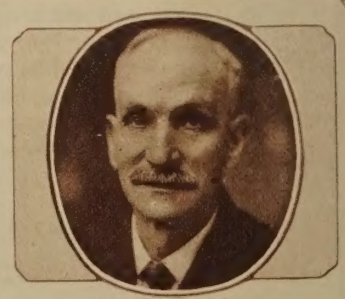
Mr. J. F. Purvis



"I have been a customer of Montgomery Ward & Co. since the Kansas City house was first started," said Mr. Purvis, "and in all those years have found the house to be honest and determined to do just what they say they will do in the catalogue. During the time I have been dealing with them I have bought hundreds of dollars worth of merchandise and have never once found them unwilling to do what was right, and I am always willing and anxious to say a good word for Montgomery Ward & Co."



Mr. Anthony Balster



"I have dealt with you for 25 years and have found you fair in all dealings. Your merchandise is good and your prices save me money." That is what Mr. Balster has to say of his experience in buying goods from Montgomery Ward & Co. His purchases have been of a general character including clothing for all members of his family. One of his boys ordered one of our special $10-overcoats. Mr. Balster says it has proven very satisfactory and one of the best investments in an overcoat that he has ever seen.

Mr. Balster, who is a progressive farmer living near Jamestown, N. D., is truly representative of the type of customer who selects Montgomery Ward & Co. as the right place to trade. The lower picture shows the big barn on the Balster farm, with a flock of pure bred African geese in the foreground. Mr. Balster writes that he uses all modern machinery and tools he can afford. He has equipped his farm with a gasoline water supply system and power plant. He prides himself on the things he has done to improve farm conditions. Mr. Balster buys from Ward's because he is satisfied he receives a good grade of merchandise at a fair price.

Mr. Akeley's favorite occupation is rebuilding houses and lately he has spent most of his time in this way. He has already remodeled four houses in which he used Ward's building materials. At present, he is rebuilding a fifth house in which he plans to use Ward's woodwork, flooring and a Windsor Pipeless Furnace. During his dealing with us, he has visited both our former location on Michigan Ave. and the present house. He remembers with pleasure a trip which he made several years ago up into the famous Tower of the Michigan Avenue building. He is one of Ward's good customers and always ready to say a word in our favor to his many friends.

Mr. Ira Akeley

"During the 35 years I have lived in Aurora the name of Montgomery Ward & Co. has been well known to our family. It is well over 20 years since we sent our first order to Ward's and since that time we have sent many more, for several different kinds of merchandise. I have always been well pleased with the way we have been treated by Ward's. If there is ever anything which is not entirely satisfactory, Ward's is always ready to carry out its guarantee of satisfaction to the customer. Ward's low prices have meant a big saving to us."

What can we do for You?

A Personal Message from the President of
MONTGOMERY WARD & CO.

As you turn the pages of this, your new Spring and Summer Catalogue, there is just one train of thought that is uppermost in your mind:

"What is there of interest in this book *for me?*
How much saving is there *for me?*
What can Montgomery Ward & Co. do *for me?*"

In imagination I look into the homes of over five million customers into which this book goes, and in each I seem to hear these same questions asked. And as I sit here in my office and look around at over one hundred acres of floor space, filled with new merchandise, I see the answer so plainly, the many advantages, the great saving, that I wish there might be some way of bringing you more closely together—you and Montgomery Ward & Co.—so that you might learn for yourself the answers to your questions.

If I could draw up a chair with you there at your own living room table and turn with you the pages of this Catalogue, I would tell you the most interesting business story you have ever heard.

It would be a story of how thousands of our bargains are secured, how our low prices are made. It would be a romance of ready cash and the tremendous buying power your patronage gives us. And of travel—travel through every part of this land and in Europe, searching for good merchandise at the lowest possible prices.

Do you know how our goods are bought—how our bargains are found? Let me give you an example: Here is a manufacturer who has a reputation for making the best goods, who lacks capital, who lacks business, so that his plant operates on half time part of the year. But he knows how to make good goods. We furnish the needed extra capital, we give him orders that make the wheels turn all day and keep his employees busy all the year. His own earnings are increased and his cost of manufacture cut far below anything he has ever known. And this saving goes to those who buy goods at Ward's—to our customers.

Scores of our buying experts study every market for raw materials. They find out that there will soon be reported a big shortage in the cotton crop. We buy cotton goods before the prices go up. And as a result our prices on cotton fabrics and things made of cotton are almost the wholesale cost by the time our Catalogue is issued.

What can we do for *you?*

You want to buy goods at a saving. You want to buy goods that will give you complete satisfaction. You want prompt service. You want your orders filled promptly, and your letters answered promptly—and you want your patronage appreciated.

At Montgomery Ward & Co. you get all these things. These are the advantages that are waiting here for you.

A saving—yes, we try always to offer you a saving, but always a saving on goods of Ward Quality. *I cannot lay too much stress on "Quality."* We do *not sell "cheap" goods.* It is our policy to offer only goods that will stand up, that will give service, that will do exactly what you want them to do.

You should learn to distinguish between one low price and another low price. You should learn to know the house that sells *"cheap"* goods cheap, from the house that sells *good* goods cheap.

It is easy to sell at seemingly low prices. All you need to do is to buy *low priced goods.* Take something out of the quality, out of the service, and you can always make a low price. *At Ward's we never sacrifice quality to make a low price.*

And, for fifty-two years this has been the policy of Montgomery Ward & Co. For fifty-two years in every dealing with every customer we have tried to follow a "deal as you would be dealt by" policy, to carry out Mr. Ward's original idea of bringing the Golden Rule into business. This, the first mail order guarantee, was formulated by Mr. Ward and published in his catalogue in 1875.

We are glad to send you this—our new Spring and Summer Catalogue. We solicit your patronage. We guarantee to deal with you as you would be dealt by. Further, we say to you that your orders and your letters are always fully appreciated at Montgomery Ward & Co.

Theodore F. Merseles

To the Women of America

This page carries a message of importance to women who are interested in style, in value and also in the serviceability of their wearing apparel

We believe our customers look to the value of the garments they buy as well as to their mere newness or prettiness.

We believe a dress to be *desirable* must be a dress that wears well, that gives satisfactory service as well as new in style. We believe you think so too and, therefore, we want to tell you that "Ward Quality" holds sway in our Fashion Department as well as in every other department of this business.

On the next page we picture a beautiful new style —made of famous "Corticelli Service Taffeta." It is made of genuine Corticelli Taffeta. You know Corticelli Silks. Your grandmother knew them and wore them. You know just what to expect in beauty and service from a dress made of this standard material. Ward's price for this dress is only $17.50

On Page 10 there is a charming new style made up in Mallinson's "Roshanara," and another made of Mallinson's "Molly O' Crepe." On Page 17 there is a dress made of "MOON-GLO"—the widely advertised satin made by the famous manufacturer of exclusive silks, J. A. Migel. You know these silks. You see them advertised in all the fashion publications. You know these materials are the most stylish of the season and that they are of standard quality.

On Page 21 you will find dresses made of genuine "Peter Pan" Ginghams, guaranteed fast color. We believe there are no better ginghams made.

On Page 24 is shown an all wool Polo Coat, at a price so low it is startling. And yet notwithstanding the low price—the material is the famous trade-marked "WooLooW" cloth made by the Suttons Mills.

You see in these bargains Ward's policy of Quality. Anyone can make a low price—anyone can sell "*cheap*" goods at low prices, but Ward's policy is to sell *good* goods at low prices.

We could make any of these garments of ordinary materials, offer them at a lower price and make a much bigger profit ourselves. But Ward's *never sacrifices quality to make a low price.*

When you buy wearing apparel at Ward's you buy serviceability and style. You buy New York Styles selected in New York by our own fashion experts —men and women to whom style has been a life study. But with this assurance of correct style, you have also the assurance of good quality. You know when you buy one of the dresses made of these costly materials that no matter where you go your dress is one of which you may be proud. You know the material is right, and that the dress has all the little niceties and little touches that give the greatest personal satisfaction.

You have here the proof of your advantage, your saving in buying your wearing apparel at Ward's. We do not believe that anywhere else can you buy a dress of these costly materials, ready to wear, and at a price almost as low as you customarily would pay for a dress of ordinary materials.

Compare prices, compare styles, and also compare *materials and their serviceability*—and you will see how wonderful has been our work in creating garments of such standard quality and offering them at prices as low as garments made of ordinary fabrics can be purchased elsewhere. "Ward Quality" is an important advantage in the purchase of your wearing apparel.

Corticelli Service Taffeta

A World Famous Silk Fabric in

A Dress for All Occasions

To be able to offer you this remarkable bargain, it was necessary to start with the material itself, and after deciding on that, we had this style reproduced from a creation of one of New York's best known designers of women's dresses. The result is this beautiful dress—a value that we do not believe can be duplicated anywhere.

This is a dress that you can wear on any occasion with full assurance that the style is correct—that the material and workmanship are of the very best. We offer it to you at the exceptionally low price of $14.98, knowing that you will recognize at once what a remarkable bargain this is.

Best Known of All Silk Taffetas

There are many different grades of silk taffetas selling at as many different prices. We considered all the grades and we found just one that was good enough to offer to our customers in this dress. That was Corticelli Service Taffeta, with the beautiful chiffon finish. Corticelli is the oldest and best known manufacturer of fine silk taffeta in the world. For 85 years that name has stood for quality, and is known to practically every well dressed woman in America.

We know from experience that Corticelli Service Taffeta is far superior in wear, luster and quality, simply because it is produced by weavers who have been making this same cloth for many years. This taffeta costs more than other grades, it is true, but we wanted the best to be had, for this—our feature dress bargain of the season. Corticelli Service Taffeta is a known value.

When you stop to consider that a dress of this kind contains several yards of material, and when you consider the lining, trimmings and the making, you will readily understand why dresses of this fine material and style sell regularly in the large fashion centers for from $25 to $35.

Corticelli makes only one grade of silk taffeta—the very best. You get that grade and you need have no doubt whatever regarding the quality of this taffeta. Neither Corticelli with their 85 years, nor Montgomery Ward & Co. with their 52 years' reputation for fair and honest dealing could afford to sell this material in a dress unless it was of first quality and perfect in every way.

This Corticelli Taffeta with the Chiffon finish is freshly made, right off the looms—soft and shimmery—every yard of the standard Corticelli quality. The price advantage is simply the result of the tremendous buying power of Montgomery Ward & Co., made possible by our serving more than five million customers.

A Stylish Dress for All Occasions

This attractive style will appeal to the woman who wants a dress that she can wear either for afternoons or for dances and parties. It is reproduced from a popular New York style that is particularly appropriate for misses and small women. We want you to notice especially the back, which unlike many dresses selling at low prices, is just as stylish and well made as the front. As in all Ward's garments, we have made no attempt whatever to "skimp" either the material, trimming or the dressmaking of this garment. The long service you will get from this dress is one of its big features.

How This Dress Is Fashioned

14 F 5—The softly fitting, shirred basque style with Bouffante skirt is preferred by many well dressed women because of its youthful charm. The trimming shows exceptionally good taste. A frill of creamy soft georgette embroidered in burnt orange trims the neck and sleeves. At one side is a pocket effect made of loops of grosgrain ribbon finished with a cluster of dainty colored tinsel dusted flowers and flowing ribbon streamers. The Bouffante effect at the hips is secured by shirring, finished with a cord, a way good dressmakers have of making graceful lines. Dainty buttons finish the back closing—an altogether useful and clever touch. Every detail—the way the hem is put in, the quality of the lining and finishing measures up to the standards of the best dress designers.

MISSES' AND SMALL WOMEN'S SIZES: 14 to 22 years; 32 to 40 inches bust measure.

14 F 11 This is a season of fancy dress materials, and so we offer this pretty Frock of Silk Mixed Crepe, suggesting the elaborate brocades.

As you would expect, considering the effect of the fabric, the style is plain. A slip-over, straight line model, with becoming kimono sleeves. These are finished in points, and picot edged. All the trimming is centered at the girdle, the front of which is an embroidered medallion in harmonizing colors. At each side of the girdle, is a ruche of the material. A frock that may be worn for dress for Spring and Summer occasions.

14 F 17 The Coat Dress still is fashionable. It has remained in fashion a long time, because it is so practical. It slips on easily; can be stretched over an ironing board with no trouble, and ironed in a jiffy. It looks trim and neat.

This model is of Cotton Suiting, a material that wears and washes beautifully. We offer it in three especially pretty Summer colors. The embroidery—see illustration—is a heavy, round thread in self color, couched on with a thread of darker color. Something different and very effective. Back plain with bow sash.

14 F 25 A lovely Summer Frock, ready to slip on for the first warm Summer day.

It is fancy Voile, made in a most delightful fashion. The tier ruffles at the side are in a plain color voile to match the background in the design. They are accordion plaited and edged with a wide lace. Frills of the plain voile extend above the narrow girdle and trim the short sleeves. The whole effect is dainty and youthful—the kind of dress in which most women look their best.

Notice how well the dress is made. It shows what a splendid value it is. How many frocks do you see at $5.88 finished with such fine detail? Pipings at the shoulders with fullness to give a becoming bust line. The lace put on carefully, neatly. In every way, it suggests a much higher priced model.

14 F 31 A delightful material—Monte Carlo Voile. Soft and sheer and cool as only voile can be, and the paste dots give the suggestion of Dotted Swiss. In this model, the designer has gone a step farther and made an all over embroidery design. New and decidedly charming.

To show the detail of the design, the style of the dress is plain—slip-over blouse, with vent at back to give ease in dressing; short sleeves; and waist gathered gracefully to skirt. The simple, easy-to-wear lines that most women find becoming. The collar of embroidered net is unusually pretty and fine.

We call attention to the low price of this dress. But, of course, this will not mean so much to you until you have the dress in your hands. Then, you can see what nice quality the voile is, and what a pretty, tasteful, well made model this is. Even the two-color ribbon girdle is of a superior quality.

F 43 Just stop to think of the time it would take you, or a ssmaker, to make this Dress. It has so many fine, little details of rkmanship. We consider it a most remarkable value at $2.98. The white Pique collar is hemstitched for finish. The vestee is of Gingham on the bias, tucked and trimmed with buttons Notice charming way the cuffs tie, in attractive little bows. Every but- on the front has its pique loop, made most carefully.

The main point of value is the quality of the Gingham—unusually e and evenly woven. The pique is that narrow wale grade that nders so well. Back plain with bow sash. Closing at side front ng vestee.

You could hardly buy the gingham, the pique trimmings, the but- is for the price we ask for the complete dress.

14 F 57 This Dress will interest nearly every woman because it is so pretty and yet is inexpensive. She may be the young mother of a family; she may be a young woman just starting out in the business world; or she may be a girl staying at home. The dress will cost her very little, and it is really charming.

The material is very new—Witchery Crepe in a dainty, figured design. Trimmed with bands of net and narrow velvet ribbon. The skirt has two pretty front flounces with a loose panel at one side. The Peter Pan collar is of net daintily ruffled, to match the fancy cuffs. Back is plain with sash of self material.

To look at this dress, most any one would judge the price to be higher, and when you examine it you will see how nicely it is made, how neat the pattern is, and the good quality of material we have used.

14 F 47 No matter what the occasion, the girl dressed in white looks her prettiest and this is a white dress that may be washed many times without injury.

This model is a straight line, one piece style of White Cotton Gabardine. Dresses like this will be very popular this Summer—they are cool and comfortable and at the same time, smart.

The trimming is unusual—Woven Cotton Damask, an exceptionally durable material. You have no idea what a pretty effect it makes. Large sports pocket. Closing down side front.

You will find this a practical dress—one that will give you splendid service, yet always look neat and attractive. You scarcely could make a better selection. We recommend the dress highly as an excellent value, thoroughly typical of the high quality and savings you always find at Ward's.

Spanish Lace
$8.49

Fashionable Dress of Spanish Lace

14 F 61 A dress which you can wear to parties in the afternoon, or in the evening, is what we planned for you in this dress made entirely of Spanish Pattern Lace.

It is made over a good foundation of silk-mixed Tussah which gives body to it. The neck is finished with a Georgette piping, and the sleeves have Georgette bands. A dash of brightness is given by the ribbon flowers caught into the dark ribbon sash.

And did you ever imagine you could get a party dress for the small price of this dress? The saving over the price you may have expected to pay will enable you to get a second dress. The lace of this dress is patterned with big roses in Spanish design.

Monte Carlo Voile
$3.75

14 F 67 A tuxedo effect quite different from the ordinary was worked out in the waist of this dress of Raised Dot Voile. The long embroidered Organdie revers end at the round, collarless neckline which fastens in front with two crocheted buttons. The skirt is plain, but amply full, to show better the dainty flower design of dots. A tucked organdie vest fills in the front of the blouse and the short sleeves have turn back cuffs of organdie to match the revers.

The woman of well-rounded figure who wears regular sizes, will find this pretty voile dress especially becoming to her. The skirt is amply full.

You probably have paid more than $3.75 for an ordinary voile dress. You would hardly expect to get a Monte Carlo Voile at this low price, but through an unusual arrangement with a reliable maker we are able to offer you this saving.

Canton Crepe
$14.50

14 F 71 Do you know that it is very unusual to find a handsome Canton Crepe dress priced anywhere near so low as this?

The Canton Crepe is a beautiful quality—well up to Ward's high standard. But more than that, the dress has those little touches of style which are more often seen on very high priced dresses.

A satin bow and a plaited jabot frill of crepe down the left side. A plain jabot frill with a beaded ornament on the right side. The slit sleeves have graceful flaring cuffs.

A charming model and a splendid value at the price.

How to Measure for Women's Outer Garments

At the end of each description we tell you what measurements to send us. For some garments we require only one measurement; other garments require more than one. If you will take these measurements exactly as directed below, we guarantee to fit you satisfactorily.

Bust measure: Place the tapeline entirely around the body over fullest part of bust, close up under the arms. Do not take this measurement too tight and do no allow tape to slip down at the back.

Waist measure: Take this measurement over your corset all around the natural waist line. The number of inches shown by the tapeline is your correct waist measure.

Hip measure: Place tapeline around the fullest part of the hips over your skirt, 7 inches below your natural waist line. Do not allow tape to slip down.

Front Length of Skirt: Measure from your natural waist line in front, down to whatever length is desired.

Back Length of Dress: Measure from back of neck to bottom of hem.

Order According to Your Own Measurements, Taken with a Tape Measure. That Way You Can Be Correctly Fitted.

When a garment comes in to us from the maker, it is thoroughly inspected—to see that it is made in every detail according to our specifications. Our inspectors look over seams to see that they are finished right; measure the widths of skirts and depths of hems. Every garment must pass as perfect. This is how our quality standard protects you.

14 F 83 Romance Crepe is one of the loveliest of the new dress crepes. Soft and silky, with just enough of a "crinkle" to make it delightful.

This model is a real bargain, because romance crepe is much in demand, and most dresses made of it are usually priced higher than this one.

The graceful side panels are edged with a wide, fine lace, and the rosettes at the girdle are made of this lace. The neck and sleeves are, of course, trimmed to match.

You will enjoy wearing it for spring, and especially for summer because the crepe is light and cool. Sash ties at back.

14 F 89 This navy blue Coat Dress is one of the most fashionable models of the season. And to get this clever style, in a good All Wool quality of Poiret Twill at $10.50 is exceptional.

The style is the plain, button at the side model now so popular. It closes along the long lapel with a tie sash at the side. Easy to slip on and extremely comfortable to wear.

The trimming is a fancy black braid, used on all edges—around the collar, down the front, finishing the sleeves and the hem of the skirt. At the front the skirt is fitted snugly, a new fashion, with two corded rosettes of the twill holding the sash. In the center of these is a tiny touch of bright soutache braid.

Stylish Coat Dress With Frills

14 F 91 A Coat Dress with charming frills of Georgette. The material is very attractive—a Silk Mixed Crepe, woven with tiny squares as illustrated. Rather heavy in texture, so that it conforms to the coat dress style very well and is just the right weight for summer.

These new tailored fashions are very popular and most women will find them becoming. Nothing is so neat as the long, tight sleeves, especially when they have a frill turned back smartly as in this model.

The style is the favored coat dress model—wrap-around skirt, fastening to one side. Plain back and front with slight fullness over hips. The belt leaves the front plain and ties at the back. You couldn't find a newer trimming than dainty, soft frills of Georgette.

A good many times the question is asked, whether certain dresses are washable. To be perfectly fair, we say that it depends on the method used in washing.

We have known women who could take a bar of dependable, mild soap, and wash delicate fabrics successfully.

On the other hand, dresses are sometimes ruined absolutely because they are washed hurriedly and carelessly.

Whenever you have a dress that is made of a dainty fabric, wash it with the utmost care. Use mild, good soap—preferably flakes—and water not too warm. Do not have your iron too hot, and iron the frilly, important things, such as sleeves and lace, first.

Material—Fit—Tailoring

All That Could Be Desired

"Recently I ordered a Woman's All Wool Serge Suit, and the material fit, and tailoring are surely all that could be desired. Besides this I saved over 100 percent on it. That looks like a big saving, but I went to a nearby city and compared quality and prices so that I would know. I have bought from you every kind of garment for women's wear and have never yet been disappointed.

Mallinson's Silks

Roshanara and Molly O' Crepe

A special arrangement direct with H. R. Mallinson & Co. of New York makes possible these exceptional bargains. At very moderate prices we offer to you dresses created by New York designers and made from two of the finest, most exclusive and popular fabrics of the day.

Mallinson's silks are well known to fashionable women everywhere. To these women, that name means high quality, distinctive weaves and great durability. For these dresses, we selected the two Mallinson creations that are the greatest favorites this spring—lovely Roshanara and beautiful Molly O' Crepe.

Fashion's Favored Fabrics

Roshanara Crepe is made in one quality only—so you know exactly what you are getting when you order a dress made from this fine material. Woven from a mixture of the finest silk and woolen yarns, it has an appearance that is both distinctive and desirable. One reason for its great popularity is the fact that it is exceptionally durable and retains its shape without frequent pressing. Roshanara has the necessary weight, so that it drapes well and lends itself readily to the newest Spring styles.

Molly O' Crepe is a beautiful shimmery Satin Canton — a fabric that has the brilliancy of satin combined with the soft beauty of Canton Crepe. It is not to be compared with any other Satin Canton. It drapes gracefully and makes up exceptionally well without puckering or pulling, and being of such a close weave, it renders excellent service. Molly O' Crepe, too, is made only in one quality—the best. This is the very same material that you see so extensively advertised this Spring, and it is truly one of the most popular fabrics for the new Spring and Summer dresses.

Select Your Favorite Style

You may order your choice of these dresses with the fullest assurance that you are getting materials of exceptional quality and value. The workmanship and style are entirely in keeping with the quality of the materials. The low prices are simply the result of our extraordinary purchase of these fine silks—and having these dresses made under the most favorable conditions.

14 F 127 These Dresses are very unusual from the standpoint of workmanship. As you know, we have a high standard of quality. But the manufacturer of these dresses even surprised us. So that every dress is a most remarkable value at such a low price as $2.98.

This model is a coat dress style, with rever collar of a white, openwork material. Pocket flaps of this material and collar are edged with lace in filet pattern. A bias band extends down the front in the popular side closing, with button trimmings and piping of white. The dress slips over the head, with opening under collar to make it easier to get into. The dressmaking in this garment is something exceptional.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 22 years. Waist and hip measurement in proportion.

When ordering state bust measurement; also length from back of neck to bottom of hem. Read "How to Measure" on Page 8.

We first bought the materials for the dresses on this page; then we had them made up under our own supervision by an extra good maker. The result is some very unusual values. We doubt if they could be duplicated, under ordinary circumstances for fifty per cent more than our price.

14 F 121 Of these four values, this Dress will appeal particularly to the woman of dainty tastes. The material is a sheer, fine Tissue, but it's the colors that make it so charming, with their summery, refreshing shades.

Study the style for yourself. You can imagine how attractive it is, especially since the Organdy is a crispy, excellent quality, and the lace is creamy Valenciennes, gathered full. The piping is done in a color to match the thread check. Also a slipover style with opening at vestee. Two dainty pockets. As pretty a frock as we have ever seen.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 22 years. Waist and hip measurements in proportion.

14 F 117 Tissue $2.98

14 F 117 Just notice these attractive styles. Who could ever guess to look at them that they could be sold at $2.98 and contain such good material

In this model, the designer secured a checkerboard effect for the collar and pocket trimmings. White Gabardine with little plain pieces of material woven in-and-out. (See picture.) Neat bias bands and tiny pipings of white trim the edges. A slip-over style with plaits at the side. The sash ties in a bow at the back. Opening at front, with smart tie in black We consider all these dresses so excellent in style and value, we would even go so far as to recommend them to June brides whose trousseaux, of course should represent the prettiest things a girl can buy.

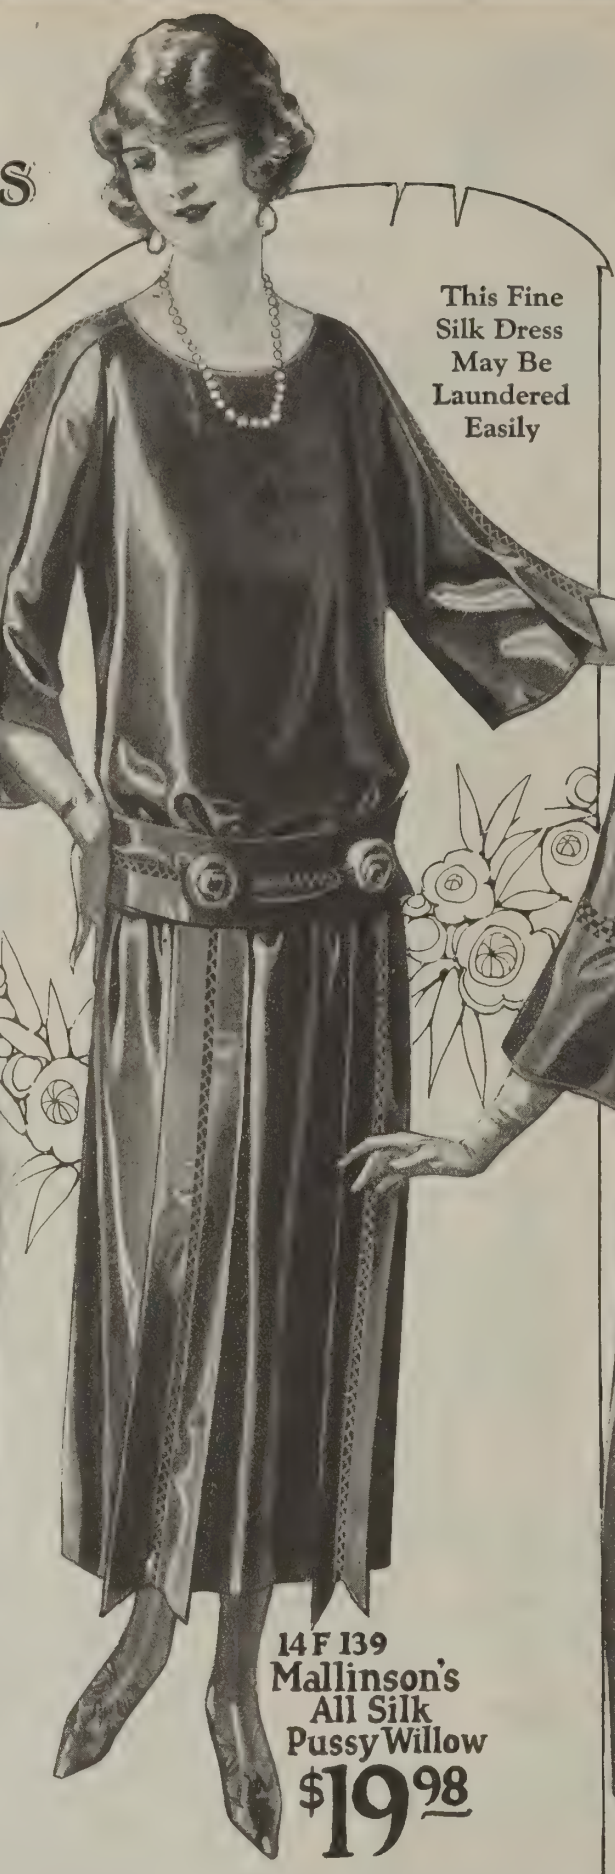
Ward's Better Dresses

This Fine Silk Dress May Be Laundered Easily

14 F 133
All Silk
Canton Crepe
$15.50

14 F 133 The Beaded Dress seldom goes out of fashion because it is always pretty and appropriate for dress-up occasions. You can wear it in the daytime—for a wedding or for church, or you can wear it for evening parties. The effect is always the same—charming, appropriate and stylish.

The style is the straight line, slip-over model of All Silk Canton Crepe, with elastic at waist. Always comfortable and in good fashion. You wear the tie-around sash low to get the most becoming line. The beading is a little different than usual—steel beading combined with black bugle beads. At the front and back is a collar, edged with a loop fringe of steel beads. Canton Crepe is a substantial quality that you can depend on for long service.



WOMEN'S SIZES: 34 to 44 inches bust measure; waist and hip measurements in proportion.

Mallinson's
All Silk
Pussy Willow
$19.98

One of Our Exceptional Dress Offerings

14 F 139 So that you will appreciate this extraordinary value, we must tell you the interesting story of how this Dress was purchased to sell at such a low price.

A manufacturer, one of the largest in his line, had this beautiful dress model made of Mallinson's Washable Pussy Willow. As you probably know, this is one of the finest silks made today.

He realized that this would be a fine dress for Montgomery Ward & Co. to sell, because of its style and value, and because the silk is washable, thus doing away with the problem of dry cleaning.

Because this manufacturer desired to introduce his line of dresses to our millions of customers, he sold them to us at actual cost. **A cash saving to you of about twenty dollars**—since dresses of this very same style and material are retailing regularly at around forty dollars.

It is truly a beautiful dress. Not only is the silk of extra fine quality, but the workmanship is exquisite. The best dressmaker you know could hardly do better. Trimmed, as illustrated, with a fine fagot braid and rosettes. Opening at shoulder to make it slip on easily. Back made like front.

A dress the most particular woman would be glad to wear, and a value that is really very exceptional at our price.

WOMEN'S SIZES: 34 to 44 inches bust measure; waist and hip measurements in proportion.

MISSES' AND SMALL WOMEN'S SIZES: 16 to 20 years; 34 to 38 inches bust measure; waist and hip measurements in proportion.

All Silk
Canton
Crepe
$15.88

14 F 145 A fine Dress made of All Silk Canton Crepe of a very fine quality. The trimming, as the picture shows, is a fancy braid, arranged in loose bands. On the girdle are small rosettes of the crepe, with a tiny touch of color in the center. The braid also trims the sleeves in an effective manner. Opening at shoulder and under arm seam, easy to get into.

When you get this dress, examine the way it is made. Notice the fine finishing on the braid bands—a really exceptional piece of dressmaking. See the French seams on the flare cuffs and the neck and the way the seams are finished on the inside of the dress. Then, you will have all the more confidence in ordering your dresses from Ward's, because you always will remember this as an example of our usual offerings.

New Summer Sports Costume Suitable for All Summer Wear

14 F 157 Because we know that the best dressed women in New York and elsewhere have adopted the custom of wearing sports clothes in summer for nearly all daytime occasions, we have chosen this pretty Linene Sports Dress for our customers.

While it is called a sports costume, you can see at a glance that it is handsome and dignified enough for almost any occasion. The skirt, with plaits at the side, is of white Linene with a band around the bottom of novelty black and white linene to match the sleeveless jacquette in sweater effect.

One of the nicest things about this dress is that when you remove the sleeveless jacquette, you still have a whole dress, for attached to the linene skirt is a fine white voile blouse trimmed with filet pattern lace on the deep shawl collar and turn back cuffs. Down the front of the waist are three deep tucks on each side. Now just glance at the modest price of this costume and you will scarcely believe it possible.

The jacquette is bound all around with white and fastens with snaps under three pretty pearl buttons. Notice the unusual pointed cuffs on the short sleeves. The longer you look at this dress, the more you realize how much style it has.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 22 years, waist and hip measurements in proportion.

When ordering, state bust measurement; also length from back of neck to bottom of hem. Read "How to Measure" on Page 8.

4 F 151 This Canton Crepe Dress is one of the best silk dress alues we have seen this season. A dress in this plaited style, of ich heavy All Silk canton crepe requiring so much material usually ells for around $30 in department stores, and here you may order for only $17.98.

The clustered plaits which form two panels down the front and wo down the back are plaited right into the dress, so well that ney won't come out easily even after much wear. Aren't the deep laited cuffs pretty? The belt is flat and beaded across the front nd back, tying at either side, elastic band makes it fit well over the ips.

WOMEN'S SIZES: 34 to 44 inches bust measure, waist and ip measurements in proportion.

When ordering, state bust measurement; also length from ack of neck to bottom of hem. Read "How to measure" n Page 8.

14 F 159 The woman who keeps up with Fashion, will choose this Dress and feel sure that it is one of New York's best styles. Tiered skirt dresses are very new

The three tiers fall together at the left side of the skirt into a jabot frill which falls gracefully below the hem of the dress. A double metallic buckle catches the frill on the left hip. The waist has an extra front panel, and back panel. Wide flaring cuffs make the sleeves pretty. The sleeves and the tiers are finished with tiny hems.

The Tricosham in this dress, is the heaviest, silkiest quality we could find. A remarkable value at this low price. Notice how much of the material we have used The generous amount of material in each dress is another feature which makes it an unusual value.

Descriptions of Dresses Pictured on Opposite Page

14 F 215 We recommend this Dress to the woman who wants to buy a practical style. It is a model that will look very pretty for Sundays; at the same time it is dressy enough for evening wear and parties.

The material is All Silk Canton Crepe—one of the most durable and attractive of dress silks. The beading is put on in rows—straight across the front of the skirt, and suggesting a panel on the front of the blouse. A piping in contrasting color, harmonizing with the beading, finishes the neck and cuffs. Loose side panels give a pretty line to the skirt.

We are offering this Dress at a specially low price. The woman who orders it can feel she is getting real value for her money.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 22 years. Waist and hip measurements in proportion.

14 F 221 The attractive material in this Dress is an artificial Silk and cotton Crepe in a block plaid design, reproduced from one of the fashionable new silks.

The style is simple but charming and one that most women will find becoming. Ribbon bands form the popular one-side effect and trim the turn-back cuffs and collar. On the tan dress, the ribbons are a darker brown; on the blue dress they are plain blue. The whole effect is very stylish. As the picture shows, the dress is a straight-line, slipover model, with just a slight fullness at the hips for a graceful line.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 22 years. Waist and hip measurements in proportion.

14 F 227 This Dress is one of the most remarkable bargains we have offered in many seasons. Almost any woman knows that $2.98 is an exceptional price for a dress that has quality and pretty becoming style. This model has so much of both you would judge its value to be a great deal more.

The material is Monte Carlo, or washable dot Voile. It has the sheer, dainty softness of dotted swiss. The designer purposely made the dress plain, in order to put the best quality possible into the lace trimmings. It is dainty and unusually nice for the money. The dress is made full—not one particle of "skimping." Full pretty sash of self-material. Loose panels forming pockets as illustrated.

WOMEN'S AND MISSES' SIZES; 34 to 44 inches bust measure; 16 to 22 years. Waist and hip measurements in proportion.

Migel's "Moon-Glo"

The Queen of Satins

When we planned this great dress value, we wanted a superior dress satin, long wearing and of high luster—we wanted a satin that would not "pick" or "ruff"—common faults of most satins. We tested many grades and makes before we found it.

Only one satin could measure up to the high standard we had set for this dress, and that was Migel's "MOON-GLO." We went direct to J. A. Migel, Inc., and arranged for a quantity of this fine material, which we are offering in a dress which is an exact reproduction of a new spring fashion, now very popular in New York and other large style centers.

This is Genuine "MOON-GLO"—the very same Satin that you see advertised in the best fashion journals. Sold by leading stores all over the country, and it costs the woman who asks for it at least a dollar a yard more than other satins sold in the same store. Why? Simply because it is of superior quality, made entirely of natural silk—made full width. Women find that dresses made of this high grade satin look better and last longer. Remember, there is only one grade of "MOON-GLO" Satin, and you get that grade. This material is freshly woven, soft and shimmery and free from all flaws.

You will find sewn in each dress the Nationally Advertised "MOON-GLO" label—your guarantee of Migel's Genuine "MOON-GLO" Satin.

A very new and youthful style, fashioned of Migel's "MOON-GLO" Satin and fine quality velvet ribbon.

It is a well made dress in every respect, yet our price is but little more than the satin and trimming alone would cost if you should buy it by the yard.

This pretty dress has been carefully made under our own supervision. We have not been satisfied merely to select a world-famous fabric—the style, trimming and every detail is entirely in keeping with the high quality of the "MOON-GLO" Satin. The result is a dress that you can wear with perfect assurance that the style is one of the very latest and the material is one of the finest that it is possible to produce.

If you are at all familiar with the usual retail prices of dresses made from "MOON-GLO" Satin, you will know that our low price on this dress is absolutely no indication of its true value. This is an excellent example of Ward's ability to produce greater bargains for you.

We feel justly proud to be able to offer our customers such a remarkable value in a stylish dress made from Genuine "MOON-GLO" Satin. We haven't the space to tell you all the details of the purchases which make possible this great bargain, but you may order this dress with perfect confidence, and we feel sure that it will exceed your highest expectations as to real, honest value in a stylish, serviceable garment.

14 F 459

Migel's "Moon-Glo" Satin

$17.50

14 F 459 — The fashion feature of this lovely dress of "MOON-GLO" Satin is the charming way the satin is combined with velvet of the same color. Bands of wide and narrow velvet ribbon trim the skirt in the fashionable tier effect. The bodice blouse has a matching collar of velvet ribbon. Bows of velvet ribbon and rosettes make an attractive waistline trimming. A lovely graceful touch is the soft, beige color georgette ruffle at the sleeves, edged with fine ecru lace. Shoulder and under arm closing.

Descriptions of Dresses Pictured in Color On Opposite Page.

14 F 401—The pretty material in this Dress and the stylish way it is made, suggests a much higher priced model. The material is Witchery Crepe—a soft, fine cotton resembling batiste. It comes in small, dainty figure design and three favored colors. Black velvet ribbon and ruffles of creamy Val lace make the trimmings. Stylish short sleeves and collar are of net ruffled with lace.

MISSES' AND SMALL WOMEN'S SIZES: 14 to 22 years; 32 to 40 inches bust measure; waist and hip measurements in proportion.

14 F 407—This Cape Dress of Navy Poiret Twill is the very latest fashion in New York. Poiret Twill is the material most in demand for wool dresses, and for this model we have used an excellent All Wool quality. The style is charming: a one-piece dress, made on the straight plain lines of the new fashions. Side closing with wrap-around skirt. Sleeves gathered into narrow, tight cuffs. The cape is worn jacket fashion and may be removed. Trimmings are a metallic braid in colors, with embroidery medallions matching. A smart, new style.

MISSES' AND SMALL WOMEN'S SIZES: 14 to 22 years; 32 to 40 inches bust measure; waist and hip measurements in proportion.

14 F 467 Only to look at this Dress of Rajah Pongee Suiting, makes you think of cool comfort. Its straight lines make it fashionable, but there is a little fullness at the waist, under the smart belt, to make it fit well.

Contrasting embroidery around the sleeves and on the bias bands down the front, matches the belt and the silk ribbon bow at the neck, which is trimmed with a pretty round lace collar. The sleeves reach just to the elbows.

This is a dress which will give you a great deal of wear, and you will always feel well dressed in it on a warm summer day. It is made in the popular slip-on style.

Rajah Pongee Suiting is a material which will not crush or wrinkle easily, and it shines like Rajah Silk which is much more expensive.

14 F 471 If you do not believe that practical dresses which get hard wear, can be as stylish as dainty, thin dresses, just study this pretty Ratine Dress at the right. What school girl or any other girl would not like it for general wear?

See how the strap, braided in white, which goes around the neck, makes the popular one sided effect. Notice the pretty cuffs slashed at the underarm. This dress slips on over the head, and ties with a sash at the right side.

Choose any one of the three colors and you will be surprised at its beauty, because ratine comes in such lovely shades. The skirt has a generous hem. Fullness at the hips makes the skirt hang well, and the waist blouses a little bit.

Surprising Value Quick Service

"I received my coat this afternoon and I want to express my thanks to you for your quick service and more than that, for such a good value. I was certainly surprised. A coat of this kind I could not get here for less than $15 or possibly more. So you may know I am more than a pleased customer.

"My little girl sends her thanks and appreciation for her rain cape. Just what she wanted."

14 F 483 There's nothing just like Linen; for attractive summer dresses, but linen is often quite expensive. Here is a linen dress of a quality fine enough so you would be proud to wear it anywhere.

It is stylish, too, with that little peplum effect below the waist in front which makes it look just like one of the popular two piece dresses which so many girls and young woman in New York are wearing. And you haven't the bother of two pieces to adjust when you wear it.

Contrasting color linen is used for the round collar cuffs and tie, and also for the bindings on the little peplum and the tiny pockets. Notice the pretty crochet buttons on the cuffs and across the tops of the pockets.

An opening at the shoulder makes it easy to slip over your head, and a narrow sash belt ties around the low waistline. Because of the plain skirt, you will find that this dress does not wrinkle as easily as some linen dresses.

When you get your dress we know you will be surprised at the workmanship and quality.

14 F 477 A Dress you will be unusually glad to see. An inexpensive Voile that is so different that you will look well dressed in it, on practically any occasion.

It is made of dainty voile, in a diamond dot pattern, trimmed with voile of contrasting color. The straight side panel and pretty handkerchief cuffs are of the plain voile. The two shades of voile braided form the girdle.

Notice how the panel falls below the hemline of the dress, a very smart effect, and don't overlook the pretty pearl buckle at the waist.

You will be glad you ordered this dress, the minute you see it. It is very becoming to slender figures and just as suitable for a girl who is not slender because of the soft fullness at the neck in front, and around the waist.

Our very moderate price makes it one of the best values you will see, quality considered.

Two Special Offerings In Summer Dresses of Printed Crepe de Chine and Eponge

The Hats shown on this page are described on Pages 36B to 46

These two Dresses are really exceptional, both as to materials and price. We feel justly proud to be able to offer them to you and we know that you will appreciate what fine values they are.

Lovely Crepe de Chine

Every woman loves Crepe de Chine and for the dress on the left we have used Crepe de Chine printed in the beautiful foulard patterns, suitable for all around wear. The quality of this material is very good indeed—and there is no material more practical. We call your particular attention to the loose airy georgette panels which add a note of style that is very popular.

Genuine Susquehanna Eponge

The pretty model at the right is made from the new printed Eponge, an exclusive product of the Susquehanna Mills, noted for the high quality of their dress fabrics. This material is a crepe-like weave of finest silk and fiber yarns. It is very dressy and durable and the colors are simply beautiful.

How It Is Possible

There is only one way that we could possibly offer you dresses of this style and quality at these low prices. First, we made a special arrangement with the Mills to make the materials especially for us in great quantities. Then, we contracted with one of the largest operators in New York to make these dresses just as we wanted them, at a time when he could give us the benefit of very low costs. The result—you see on this page—high quality dresses at prices much lower than you could hope to secure them elsewhere.

Smart Dress of Crepe de Chine Printed Like Foulard

4 F 493 A silk Dress is the first thing one thinks about when ıe plans for Spring and Easter. A dress that will go well under a pring coat—for church, for general Sunday wear, even evening parties.

This model is just that type of dress, and here is your opportunity to 'der it. In fact, the price is so low, you couldn't buy the materials alone r less. So you might just as well order it ready-made as to take the me to make it, or have a dressmaker come to your house.

The material is an attractive piece of Crepe de Chine to resemble ulard. The trimmings are fine Georgette Crepe, just about the rettiest possible combination. Skirt has two gracefully gathered panels nished with bands of the Crepe de Chine. A velvet ribbon in a bright ntrasting color trims the softly crushed girdle. The dress is made in ıp-over style, with opening at right shoulder to make it easier to get into.

The quality in this dress is a sample of what Montgomery Ward & Co. re doing in the way of good values and good fashions. The price is low, ut the grade of material and the tailoring impresses you immediately s something extraordinary.

MISSES' AND SMALL WOMEN'S SIZES: 14 to 22 years; 32 to 40 ıches bust measure; waist and hip measurements in proportion.

If you make your dresses yourself, or have them made by a dressmaker, we ask you to stop and consider what it would mean to you to order them from us ready-made.

Not only would you save time, but you could be sure that the dress would be stylish and becoming. In home sewing, there is always the risk of a dress not turning out as one has planned.

In many, many cases, you'll find that we can offer you dresses ready-made, for less than the price you would pay for the materials, trimmings and dressmaker's time. Try buying Ward's dresses this Spring.

Unusually Pretty Frock in a Charming New Material

14 F 497 The material itself in this Dress is a Silk Mixed Eponge, a fabric with the same attractive, roughish weave as Ratine. You have no idea how pretty this looks in a material that has a large percentage of pure silk in the weave.

The floral design is printed, as pictured, in a lovely, soft, harmony of colors. The designer has wisely chosen a straight-line model—the very best style to show an unusual fabric. When you put the dress on (it slips over the head) you adjust the fullness at the side according to your own figure, by two pieces of ribbon at each side. The sleeves have a smart, little touch of the new fashion in the tight cuffs and slashed seams.

We can think of all kinds of occasions where a little frock like this would come in handy. A young miss will find it just the thing for informal dances and parties. It would look very smart under a spring coat. At the same time, it would be the extra dress that one always needs for summer. Something smart and new but at the same time a practical investment.

14 F 505 At summer picnics and outdoor parties, every girl likes to wear white. And where could she find a prettier outfit than this white jean Middy Dress with its jaunty style? Middy Dresses are worn a great deal by college girls, and any girl always looks neat and attractive in one.

The skirt of this dress is box-plaited and wide enough for comfortable walking. Blue Jean, trimmed with rows of white soutache braid, is used for the collar and cuffs of the middy which is yoke style. A black tie slips through a loop of blue jean in approved sailor fashion, and there is an embroidered emblem on the right sleeve. Just where it would be in a sailor's middy, is a small breast pocket, and to fill in at the neck, a small white braid trimmed shield.

At the bottom of the middy is a wide double band coming well down over the hips. The cuffs are fastened with two buttons so that you can roll up your sleeves while you are getting your picnic supper.

14 F 507 You will be cool and comfortable and at the same time, feel well dressed, at summer dances and parties in this Figured Voile Dress. It is dressy enough for church, too.

And think of getting a dress pretty enough to wear anywhere, for $3.98. You will find it an excellent value.

Two rows of white lace finish the neck and sleeves; two dainty lace rosettes are placed at the waistline, with black velvet bows for their centers. There is a black velvet bow at the neck, also. The figure in the voile is a pretty flower and leaf pattern.

Very becoming to slender girls is this slip-over style of dress, with fullness over each hip and sashes tying at each side. You don't know how pretty a colored figured voile dress trimmed with white lace can be, until you have seen this one. Why not order it to-day, and see for yourself?

14 F 519 If you could feel the splendid quality of this Devonshire Linon, you would decide at once to have this Dress, because it is such a remarkable value at $6.25.

The bright colors in which it is made make a pretty background for the embroidered organdie tabs around the neck and sleeves and across the pocket. The sash is black velvet ribbon and a little knot of black velvet with long ends, hangs from the right shoulder. At each side of the skirt there are inverted plaits to give fullness. The sleeves, which are stylishly short, are slashed from neckline to cuffs.

Peter Pan
Fast Color Gingham

When you buy a Dress made from Peter Pan Gingham you have the best gingham that it is possible to make, and you can also be sure that the colors will not fade.

Peter Pan Gingham is well known to women all over the country. This material has been nationally advertised and sold in all the leading stores for many years. And it is the only gingham we have ever seen that would not fade in laundering.

Proved by Test

Before deciding to use Peter Pan Gingham for these three dresses we wanted to be sure that it was the best we could find anywhere. We knew it was beautiful, soft and closely woven, but we wanted to know how it would wash.

So we took two pieces of gingham—one of Peter Pan and the other of the most expensive gingham we could buy at a New York department store. We sent these two pieces to a laundry and had them washed twenty times. When they came back from the laundry the difference in quality was surprising. The Peter Pan Gingham did not fade one bit and was just as nice as new—the other gingham had faded considerably and was not as crisp as it was before being washed.

Special Purchase

We then made a special arrangement with the manufacturer of Peter Pan Gingham for a tremendous quantity of this high quality material. We had these pretty and practical dresses made under our own supervision and offer them to you at exceptionally low prices.

You will know these Peter Pan Gingham Dresses by their names: Susan, Alice and Ruth, and you will make no mistake in ordering any of these pretty styles.

14 F 545 SUSAN. You couldn't find a prettier Frock for school than this plaid dress of the famous Peter Pan Gingham. The quality is so fine, you could wear it anywhere else, too.

See the trim little knot at the cuffs, to match the tie and sash, and the plain button trimmed gingham bands down the front of the dress and on the patch pockets. There is a thread in this gingham which looks almost as if it had been drawn through by hand. Order it and you are sure to be pleased.

14 F 549 ALICE. If you are dark, like the girl in the picture you will want this pretty Dress in burnt orange. If you are a blonde, you probably will prefer the tile blue. Either of the colors are beautiful, and the one-piece style you will recognize as one you see a great deal in the fashion magazines.

The material will delight mother, because it is plain Peter Pan Gingham and the lovely color will not fade.

Contrasting collar, vest and cuffs and embroidered pocket emblem.

14 F 313 Just because your figure is larger than the average is no reason why you should not wear the latest style. Not when it is planned for your special needs by Ward's.

Coat dresses are one of the most popular styles now, and this coat dress is cut to fit you just as well as coat dresses fit the thinner women.

Ratine, in lovely colors, is the material, and the dress has hand embroidery on the revers and the front of the skirt.

The short sleeves are slashed and trimmed with covered buttons. The belt starts at the sides of the front panel and ties in back.

If you have never had a coat dress, you will enjoy, all the more, the ease with which you can launder it, and get into it when you wear it. For an all around dress you could not choose one that will give you better service or more comfort. We recommend it especially to the woman who owns or drives her own car.

STOUT SIZES: 39 to 53 inches bust measure; waist and hip measurements in proportion.

14 F 323 Every line of this pretty Printed Voile dress is planned to make you look slender. Look at the picture and you will see them all. First, the loose panels down the waist, with lace insertions set in. Then the pretty plaited panels which fall below the hem, two in front and two in back. And the long loose sleeves slit up part way to fall back gracefully from the arm.

The low waistline gives a slim effect and you will find the dress has plenty of room across the back and shoulders because it is cut full and roomy.

A pretty lace collar and ribbon tie finish the neck. The dress fastens down the front.

14 F 345 An All Pure Linen Dress in extra sizes at this price is a fine value, you will agree, even before you see the dress; But when you can see the quality of the linen you will wonder how Ward's can give so much for such a comparatively small amount of money.

The hand drawn work on the Tuxedo collar, cuffs and pockets is lovely. And every bit of the machine stitching, including the tucks in that long front panel, are finished just as nicely as the best dressmaker could do it at home.

Pretty pearl buttons are placed down the center of the front panel, in groups of three. A generous hem in this dress.

14 F 357 If you like attractive and unusual patterns, you will be pleased with this sheer Voile, in three colors. The general effect is of a check, over a figured background.

The style is especially good for a large size dress, with its long collar of embroidered organdie and its front skirt panels which are caught up over the belt to the collar and trimmed with crocheted buttons.

The short sleeves, front of the neck and the panels are piped in plain material of a contrasting color. A sash of generous size ties in back. In any one of the three color effects you will find this dress very attractive.

14 F 363 What could be more becoming to a large figure than the graceful folds of all Silk Crepe-backed Satin? It is suitable for almost any occasion.

Long sleeves are slashed up from the cuffs in four places. Diagonally plaited panels carry out the long straight lines of the dress. A beautiful beaded medallion is placed over the left hip.

The dress is made up with the gleaming satin side out, of course. It fastens at the left shoulder and underarm.

The minute you try this dress on and see how smoothly all its folds slip into place, you will decide that it is just what you need. You could not make a dress of this quality of crepe for any less than you can buy this dress all ready to put on and wear.

Extra Fullness Where It Is Needed

Did you ever stop to consider the differences between a very large size in a regular model, and a dress designed especially for larger women?

The specialists who design our extra size dresses know from long experience the proper styles and details for full figures.

Ample room in sleeves and extra width across the back and shoulders. Very low waistlines. Every line of trimming running up and down. These are some of the features of these extra size dresses.

Your New Spring Coat

All Wool Plaid From A Famous Mill

Ward's Greatest Coat Value

Ward's fashion director worked for months to produce this bargain for you. To have the largest selection from which to choose the style, he went direct to New York's leading manufacturer of women's coats, who operates forty factories with a total daily capacity of many thousands of coats.

He told this manufacturer exactly what he wanted—a stylish All Wool Polo Coat—well made throughout—at a low cost that would enable us to sell it at $10 or under.

At first the manufacturer thought it would be impossible, simply because it had not been done before. He knew that coats of this quality and workmanship were selling regularly at retail in New York and other large cities for $18 to $20.

How We Planned This Bargain

After talking with the manufacturer, his head designer and material buyer, we decided on this practical Sport Style now so popular among well dressed women all over the country. For material, we knew that there was one cloth that would make this coat a tremendous success—**Genuine WoolooW Cloth**—an exclusive creation of the Suttons Mills, which are world famous for the high quality of their all wool coating materials. By arranging with the Suttons Mills to manufacture this cloth especially for us, and by making these coats in large quantities—in this one style, the manufacturer agreed to produce exactly what we wanted at a very low price. This fine Polo Coat bargain is the result.

A Coat You Will Be Proud to Wear

When you see this coat you will wonder how it is possible to produce such good material and make it into so stylish a garment for such a low price. The material is **Genuine WooLooW Cloth**, 100% Pure Wool, weighs 14 ounces to the yard, has a firm, even texture and that soft, woolly appearance so desirable in a stylish sport coat. Cut full and roomy for extra comfort, this makes an excellent coat for motoring, street or all around wear; also a fine school coat for older girls. It will wear exceptionally well.

Your Choice of Four Color Effects

The coat illustrated has a Camel tan background with the double line plaid, which provides a much more pleasing contrast than a single line plaid usually offered in coats selling at low prices. This double line plaid is woven right into the cloth, which means that it will not wear off. Also made in reindeer tan plaid, gray plaid, and one plain color—the popular polo tan. Both mother and daughter may take advantage of this bargain.

A Most Popular Style

For style, let the picture speak for itself. There it is—a big roomy sport coat, with two deep pockets and the popular raglan shoulders providing the desirable ulster effect. The double breasted style, with four large buttons, is very attractive indeed. It is cut especially roomy—in fact, we have used more than the usual amount of material so that this coat will hang full in long graceful folds.

You Are The Judge

Order your coat today without any risk whatever. Try it on in your own home. Notice the quality of the material and the excellent workmanship. Then if you do not feel that this coat is worth several dollars more than our low price—the greatest coat bargain you ever saw in your life—send it back to us, and all your money will be promptly refunded.

How This Coat Is Made

10 F 11—This roomy Polo Coat, made of Genuine WooLooW Cloth has all the smart fashion of coats costing two or three times our low price. You slip this coat on in a jiffy—the raglan sleeves make it easy to put on over either a dress or a suit. And it is an ideal coat for the smart sweater and skirt costumes so popular this season.

The two big, deep pockets—the double breasted effect with four large buttons—the pretty flaring back—all are youthful and becoming to practically every woman. The sleeves have deep, turned back cuffs, and the entire coat is expertly tailored. Because the attractive double line plaid is almost as pretty on the wrong side as on the right, this coat is unlined. All seams are strongly sewed and bound to guard against ripping and raveling. Made full length, about 48 inches.

WOMEN'S AND MISSES' SIZES: 34 to 46 inches bust measure. 16 to 20 years. State size wanted.

The Opinion of An Expert

Mr. Frederick T. Lawrence, who handles the entire output of the Suttons Mills, is recognized in the Women's Wear industry as an authority on woolen fabrics.

We want you to read what Mr. Lawrence says about the all wool cloth from which this Feature Coat is made:

Montgomery Ward & Co.,
Chicago, Ill.

Dear Sirs:

It is gratifying indeed to know that Ward's are going to give their customers an opportunity to buy Polo coats made from our Suttons Mills standard "WooLooW" cloth. This is 100% wool, soft finished drapy fabric which has become very popular everywhere.

This cloth is one of the most up-to-date creations for the 1924 Spring season and in my opinion is one of the most striking plaid styles that I have ever seen produced.

Very Much Pleased with Her Coat

"I am very much pleased with my Coat. It is worth more than I paid for it, and you may be sure that I shall buy everything I need at your store. I thank you for my nice warm coat and such prompt delivery." Edna L. Griffin, Franklin, N. H.

Printed with Mrs. Griffin's Permission

10 F 37 A Coat of that most favored of materials—All Wool Poiret Twill. This is such a fine, fashionable material—no wonder it is so popular.

The coat is really prettier than the picture can show because of the detail of the embroidery which is richly and handsomely done. It is the same kind of embroidery that you find on very exclusive, high priced coats. Made on the popular new tailored lines, with one-button closing. You have a choice of a Satinette lining, or a more luxurious Silk Crepe. Length, about 48 inches.

The New Coats Have Straight, Plain Lines

10 F 41 Plain garments are fashionable this season—good news to many women who always prefer to dress that way.

Coats, for instance, are trim and slender like this model. To be fashionable the silhouette, or outline, must be perfectly straight up and down. No flaring—the straighter the better on this type of coat.

It is a very sensible fashion. Straight lines always make the wearer look slender, and most women desire that effect.

To introduce this style, we have made this model of All Wool Polaire. A material that resembles the fashionable camel's hair, both in its color and shaggy, soft texture. It is not only attractive, but durable and pleasant to wear.

Notice how plain are the lines. A narrow belt extends across the back and ties at one side. The collar runs into long lapels, that close with one large button. The only trimming is a narrow, flat braid put on in rows. Notice particularly the collar—the ends are caught to the lapels with snap fasteners, which makes it stay up becomingly about the neck. Your choice as to lining. Length, about 46 inches.

10 F 49 Another spring fashion is plaids—seen mostly in Sports Coats like this model. It is a very comfortable coat, too—the armholes are deep, so that it will slip on easily. It has two good size inset pockets. The way it is made, with fullness gathered into a belt, permits you to wear it over a suit.

The material is an All Wool Plaid Polaire that we bought to good advantage when we saw plaids would be good fashion. It is an exceptional quality—firmly woven, but with a finish of softest, finest texture. This gives a subdued air to the plaids, which will appeal to particular tastes.

Double belted style, with button trimmings. Long, tailored lapels at the front, with the popular one-button closing. Purposely unlined, because the material is the weight you will want for spring and summer wear.

This excellent coat is a good example of the splendid styles, fine materials and money saving values you will find throughout these pages of women's apparel. Length, about, 44 inches.

WOMEN'S SIZES: 34 to 46 inches bust measure. **State size wanted.**

10 F 49—Camel Tan.
10 F 51—Reindeer Tan.
10 F 53—Gray. PRICE, Postage, 14¢ extra **$10.75**

10 F 55 There is just enough fancy braiding and embroidery on this Coat to give a rich and dressy effect. The contrasting shades of the bright embroidery provide a fashion touch that is sure to be extremely popular this spring and summer.

Imagine how pretty this is against the soft texture of All Wool Velour. This fabric is always a favorite, because of its exceptional quality. At the same time, it wears nicely and will appeal to the practical customer.

A front belted style, with the back trimmed with two tabs of self-material. Finished with a button trimming. Sides have two well tailored, inset pockets. This is a smart little touch—different and interesting. A fine coat for dressier occasions. Lined or unlined, as you prefer. Length, 49 inches.

A Beautiful Coat of All Wool Bolivia

10 F 77 There is a constantly increasing demand for finer, dressier Coats. This is because of the lovely, elegant new materials being used in coats, and because women go about more than they used to. They feel that they need good looking coats for church occasions; for little railroad trips to see friends and relatives, and for Sunday automobile trips.

This model of All Wool Bolivia is one of the new, fine quality coats. The material is exquisite—something like velvet—soft and fine, but made of the lightest, purest wool yarns, specially manufactured for spring and summer wear. It has durability and stands up under reasonably hard wear.

A material as handsome as this is rightly made up plain. The stitch and pin tuck trimming is all it needs for decoration. Popular tie at the side style in the slender, plain lines of the new fashions. Flowing sleeves; collar that can be buttoned high. To carry out the fine quality, the lining is full length of Satin de Chine. Length, about 48 inches.

If you compare values, you will find that our price is very reasonable, because we give you an excellent, dependable quality of Bolivia.

11 F 750 Every woman who has to spend much time out of doors, should have a Rain Cape. It provides ample protection from showers and will soon pay for itself in the clothes it saves.

This cape will appeal to school teachers in rural districts, and in small towns where there are no street cars; also to housewives who have to go down town shopping in rain or shine, and business girls to wear to and from work.

The price of $3.98 is a small amount to pay to avoid ruining a good dress, or catching a cold on a rainy day.

For this price you get a Bombazine cape, with rubberized inner surface. For $7.98 we offer a dressier model of Shappe Silk—also with rubberized inner surface.

Both are full, wide capes, exactly as illustrated, designed for perfect protection. Notice the places for your arms, and the way the collar buttons up. Order this cape today, so you will be protected from rain.

10 F 115 When a woman orders a Coat from Montgomery Ward & Co., even though the price is low, she can be sure of two things—good material and good tailoring. This is not always the case elsewhere in coats selling at low prices.

For instance, the Polaire in this coat is All Wool. It is made plain, with stitch trimmings a style that is very becoming to most women. Belted, patch pocket style, with button trimmings. Summer weight—no lining. Length, about 45 inches.

WOMEN'S SIZES: 34 to 46 inches bust measure. **State size wanted.**

10 F 115—Camel Tan.
10 F 117—Reindeer Tan.
PRICE, **$8.75**
Postage, 14¢ extra

10 F 119 The designer of this Cape has used a material that gives the smart style of a higher priced model. Checked Velour—an All Wool grade with a lovely, soft, dressy finish. Then, there is the large, flattering collar of genuine Mouffion Fur.

We have also instructed the manufacturer that the cape be given the full and proper width. Tassel and button trimmings. No lining. Just the right weight for spring or summer evenings. Length, about 47 inches.

WOMEN'S SIZES: 34 to 46 inches bust measure. **State size wanted.**

10 F 119—Reindeer Tan.
10 F 121—Gray.
PRICE, **$13.75**
Postage, 12¢ extra

10 F 123 A perfectly lovely Coat. Your first glance is one of admiration—the material is so beautiful, the style so exceptionally good. Stylish, refined—what women of the best taste usually select.

It is also very practical. The material—All Wool Bolivia—will give you excellent wear. The lining is Satin de Chine, also durable. Button and tassel trimmings. Sash tie at one side. Length, about 48 inches.

WOMEN'S SIZES: 34 to 46 inches bust measure. **State size wanted.**

10 F 123—Musette Tan.
10 F 125—Navy Blue.
10 F 127—Kit Fox.

10 F 129 A very fashionable Coat. The silk mixed Moire Faille of which it is made is like the "watered silk" of olden days. It is now considered very, very smart.

It makes a dressy type of coat, especially appropriate for summer when you want a light wrap for cool evenings. The style is the favored straight line, buttoning to one side. The trimming is a long haired fur suggesting Monkey Fur. We have lined the coat full length with a fancy silk mixed material. Length, 48 inches.

WOMEN'S SIZES: 34 to 46 inches bust measure. **State size wanted.**

10 F 129—Black only.
PRICE, **$15.98**
Postage, 14¢ extra

10 F 131 An attractive spring Cape, well made in every respect from durable All Wool Polaire. Will give you excellent service.

The stripes are woven right into the material in attractive border effect. Collar has stitching to match darker color of stripes. With the arm vents you can handle things comfortably.

The low price on this cape is the result of a great deal of careful planning. After deciding upon this all wool material, we co-operated closely with the manufacturer to keep the cost as low as possible. Unusual for the money. Length, about 46 inches.

WOMEN'S SIZES: 34 to 46 inches bust measure. **State size wanted.**

10 F 513 Special spring bargain in a short Coat, about 34 inches long. This is an excellent value because the coat has the same standard of tailoring and material found in our regular coats.

An All Wool, good quality Polaire. Details of tailoring, such as pockets, collar and inside seams are carefully done. Collar may be worn high.

The special price is the result of large orders placed with the makers. When we offer as good a coat as this at such a low price, we are able to order heavily.

Back has panel plaits, with button trimmings. Made without lining because of weight of material.

10 F 537 Striped Sport Coats are now one of the smart, new fashions.

This coat is another of our leading values. The material is excellent—All Wool Polaire of an especially nice grade. The style is attractive—novel sleeves, with button trimmings and long rolling lapels. The pockets have large, loose flaps as the picture shows. All around belt, which may be worn across back. Smart leather buckle. Length, about 46 inches. Unlined. This style of coat is being worn a great deal in the large cities this spring.

10 F 563 On days when your winter Coat would be too heavy, you will want to change to a Polo Coat. Here is one of All Wool Polaire, a splendid quality, light weight but warm.

It has the newest cut notch collar, wide raglan sleeves trimmed with big buttons, and a belt with two leather buckles, one in front and one in back. The pockets are inserted.

You can see from the picture that this coat is cut on the roomy lines of much higher priced sports coats. Either color is soft enough to go well with your hats and dresses. Length, about 46 inches. Unlined.

10 F 551 Plaid Polo Coats are now extremely popular among well dressed women and girls everywhere. And all the smartest plaid coats are cut on the straight lines of this one, which ties at the side.

This pretty plaid is of fine All Wool quality. The set-in sleeves are of a very new cut, with flaring gauntlet cuffs, finished with striking big buttons to match the colors of the plaid. A handsome metal ornament trims the coat at the side-fastening.

A coat cut on these straight lines is dressy enough for almost any occasion. Length, about 45 inches.

10 F 567 Almost every girl and woman will find a great many uses for this attractive Cape. It is splendid to throw over your shoulders on cool evenings and to wear over your party dresses. Made of black Moire Faille, a silk mixed material that is heavy and lustrous, and wears unusually well.

Black fiber silk fringe finishes the bottom. The ties at the neck end in heavy black tassels, and the double collar comes close about the neck.

When the wind blows back the corner of this cape, it shows a lining of bright flowered Sateen, which gives more body to the black faille. There are two arm vents at the sides. Length, about 42 inches.

10 F 401
All Wool Polaire
$12.98

10 F 401 A very special value in a Sport Coat for the larger woman. The material, the tailoring and the style are just as good as in many coats you have seen priced much higher.

We are offering especially fine values this Spring in extra size coats. We want you to test out Ward's good values, Ward's quality materials.

The coat is the popular sports model of the season, with comfortable, smart, deep set sleeves and handy patch pockets. Pointed tabs with buttons make an attractive sleeve trimming. The material is All Wool Polaire, in a weight requiring no lining. In every detail the tailoring is expert.

It is one of the most practical coats you can choose as it has enough style to be good for all around wear. There is no doubt about the service it will give you.

There is so much good value in this coat, we are sure it will be our introduction to hundreds of new customers. Length, about 48 inches.

STOUT SIZES: 39 to 53 inches bust measure. **State size wanted.**

10 F 401—Camel Tan.
10 F 403—Reindeer Tan.

10 F 405 A Coat of very unusual quality, through and through. In the loveliness of the material, in the excellence of the making, in the smart attractiveness of the fashion—it is an exceptional coat, one you will be proud to own and wear.

The material is one of the most fashionable of all woolens—Bolivia, in a soft, fine, spring weight All Wool grade. It is one of the most beautiful coat fabrics made.

We have made the coat along plain lines, cleverly designed to bring out the best points in the full figure. The picture shows you the trimmings—cord tuck and a fancy thread stitching on the back and around the collar and cuffs.

To go well with the quality of the Bolivia, there is a full lining of Satin de Chine, which is practical as well as good looking. The coat is full length—48 inches—to cover your dresses.

All Wool Serge
$12.75

10 F 411 For all around service, it would be hard to find a better Coat than one of Blue Serge. Many women prefer serge coats to any other kind. They are practical and economical, because serge wears such a long time. And there is a certain comfort in plain dark colors, like navy blue or black.

We had this model designed especially for the extra size woman, in a plain, braid trimmed model. We were careful to pick a good quality of serge—All Wool, firmly woven, the grade of worsted that takes pressing and tailoring well. The style is full length, about 48 inches with plaits forming a panel at the back. Button trimmings at back; on pockets; and braid trimmed cuffs. The braid is the flat tailored kind that combines so well with navy blue. Half lined with a silk mixed fabric.

Our price on this coat is very low for the good quality of the serge and excellent tailoring.

10 F 419 A Coat of All Wool Polaire, made more dressy by bands of thread stitching. It is an especially good style for the larger woman because of the panel plait at the back, and the way the stitching runs up and down. You will find that it makes you look more slender.

It is also a practical and sensible coat. Slips on easily; is long enough—about 48 inches—to cover your dresses. The sleeves are wide through the arm and set in raglan style, which is not only becoming, but sure to feel comfortable. Material is summer weight. You have your choice as to lining. We can recommend it most highly to the woman who wants a coat for all around wear.

10 F 415 Many larger women prefer to wear very plain coats, similar in style to this model of All Wool Velour.

The secret of its good looks is in the way it is designed and made—by a specialist who has studied the requirements of the full figure. It will, therefore, have a neat, slenderizing effect.

It is a coat that will appeal to the woman who appreciates quality—the velour is a soft, fine grade. The stitching is put on with a rich simplicity. The small view below shows you how pretty and graceful the back looks. Quality lining of Satinette, full to the hem. Length, about 48 inches.

Just the coat for the type of woman who likes to buy better quality clothes because they last a long time and always look well.

JUNIOR girls from 13 to 19 years of age are wearing more fashionable coats than ever before. So we have planned this page especially for them.

Specially Designed

Every garment is designed especially for the youthful figure and we give you six distinct models at different prices—a selection from which you will be able to choose the coat or cape your girl will like best. Every model has its advantages both as to style and value.

Sport Coats

If your daughter would like an attractive sport coat, we recommend the three styles which we have named Janice, Marjorie and Grace. Any one of these three is an exceptional value at the price. You know sports coats are extremely popular this season, particularly for younger girls who like the "swagger" appearance.

Dressy Models

If you prefer a coat that is a little more dressy, you will choose from the models, Elsie or Sylvia. These two have the style touches that many girls prefer and are very suitable for school wear.

Every One a Value

No matter which of these six styles you select you may safely feel that it is the best design and material that we can furnish you at the price.

Misses' Dresses in charmingly youthful designs will be found on Pages 17 to 23

Girls Coats - Extra Values

Sizes 10 to 14 Years

WE want every mother to read carefully about the coats shown on this page. We have made every preparation to serve you well. We can send your order quickly. It will be packed perfectly—ready to slip on and wear.

Furthermore, we offer some very superior values. We say this, because it is a fact. Our fashion experts have worked hard in selecting materials and styles to provide quality for you, at a saving. They have placed large orders with the makers, which means that we can make lower prices to you without lowering our standard of quality.

10 F 675 The fashion expert who selects these children's Coats for you has had many years of experience. He looks over hundreds of samples brought to us by manufacturers. The coats he finally decides on are the best values in the lot.

This model of All Wool Velour is a good example. After all, $7.75 is a low price, compared to the prices asked for girls' coats by most other stores. We have selected for you a lovely material, and the tailoring represents the kind that our experience tells us is good. The style is new and becoming—loose back, with tie-at-the-side sash at the front. Attractive braid embroidery trimming. Lining of sateen so that the coat might be worn right into Fall weather.

A coat that represents Ward's quality at value prices.

How to Order Girls' Coats

In writing order give us your daughter's age. If she is large for her age, give us the age she is usually taken for. Lengths of the coats are as follows:

Age, years.....	3	4	5	6	7	8	9	10	12	14
Length, inches...	23	24	25	26	29	31	33	34	36	38

Girls' Shoes in sensible styles for school and dress wear will be found on Page 178

Smart Styles for Girls

IN all our Coats, women's as well as children's, you can notice one outstanding thing: we prefer to have plainer styles so that most of your money will buy good material and good tailoring. In our opinion, this is the foundation of any good coat. With those things first in mind, we then look for style, and tasteful, well designed, well-applied trimming.

10 F 855 Mother's favorite—black and white check. This is popular for little girls' coats, because it looks cool for Summer, and is always becoming. The material is a Checked Cotton or All Wool Serge trimmed in bright blue. Fancy buttons in a matching blue. Full lining of Sateen. Lengths, from 23 to 26 inches.

GIRLS' SIZES: 3 to 6 years. **State size wanted. Read "How to Order" on Page 34.**

10 F 855—Black and White Check. PRICE, Postage, 12¢ ex. **$1.98**

10 F 857—Navy Blue All Wool Serge. PRICE, Postage, 12¢ extra **$3.75**

10 F 801 In this Coat; the material is of great importance. As it often happens, we were able to buy the model in this exceptionally fine grade of material; at a price which made it possible to sell the coat to you much below the usual retail price. We are always watching for such bargains as this and always pass the advantage on to you. This unusually good material is softer, with a finer, higher finish than in most coats at this price. All Wool, of course.

The style and the embroidery, like the material, are unusually nice. A short, little tie-at-the-side model, with belted back. The embroidery, a heavy floss stitch, trims the back in the same design as the front. Full Sateen lining. Lengths, from 29 to 33 inches.

GIRLS' SIZES: 7 to 9 years. **State size wanted. Read "How to Order" on Page 34.**

10 F 801—Camel Tan.
10 F 803—Copenhagen Blue.
PRICE, Postage, 12¢ extra **$6.98**

10 F 811 For coats that are worn to school every day, mothers often prefer the other models. This model has the same "swagger" style that big sister's have.

You cannot choose a more practical and sensible material than Polaire. Especially when it is an All Wool grade like this.

The coat is made quite plain, with buttoned pockets and all around belt. The back is plain, gathered a bit to hang fully. The Coat itself is dressier than the picture can show, because the lining is touched with little glints of gold thread. An unusual and tasteful coat. Full Sateen lining. Lengths, from 29 to 33 inches.

GIRLS' SIZES: 7 to 9 years. **State size wanted. Read "How to Order" on Page 34.**

10 F 811—Tan.
10 F 813—Copenhagen Blue.
PRICE, Postage, 12¢ extra **$4.98**

10 F 805 For the mother who wants a real dressy little coat for her daughter we have selected this model. Embroidery always adds a dressy note to a girl's Coat. This is an especially pretty design, and done in a stitch used on higher priced models.

The material is All Wool Velour. You know how soft and velvety it is. We often use it for coats that we wish to make exceptional in quality.

The style is both becoming and comfortable. Notice the large arm hole giving cape effect.

Such nice material would take a new style—the tie-at-the-side model, with one-button closing. Back is plain with embroidery design. Full Sateen lining. Lengths, from 29 to 33 inches.

GIRLS' SIZES: 7 to 9 years. **State size wanted. Read "How to Order" on Page 34.**

10 F 805—Tan.
10 F 807—Copenhagen Blue.
10 F 809—Steel Gray.
PRICE, Postage, 12¢ extra **$9.48**

10 F 815 No wonder Knitted Capes are so popular. Little girls look so adorable in them. We make special low prices here and every little girl may have a knitted cape, as well as a Spring coat. Sailor collar and tuxedo front of Brushed Wool. Tie at neck, with gay pom-pons. Lengths, about 25 to 30 inches according to size.

GIRLS' SIZES: 3 to 14 years. **State size wanted. Read "How to Order" on Page 34. Sizes, 3 to 6 Years**

14 F 531 Novelty Crepe Sport Suit $7.98

14 F 259 Novelty Wool Knit $4.88

14 F 535 Krepe Knit and Romance Crepe $12.98

14 F 263 Silk Mixed Pongee $6.98

14 F 531 This Dress and Coat Costume has many new fashion features: a youthful, knife plaited skirt, the favored length sleeved Jacket, the collar that buttons close to the neck.

The material is also very new and stylish—a novelty Cotton Crepe, woven in an attractive, homespun-like stitch. It makes one of the smartest little outfits you can imagine.

The small picture shows the dress—the popular, short sleeves, slip-on model, with waist of Mercerized Poplin in plain color. Three rows of hand embroidery stitching in colors makes the trimming.

The jacket is a smart box model—always the most becoming coat style for a young miss. It is bound with bands of plain contrasting color, with crochet buttons in a color matching the plain material. The ideal outfit for summer occasions—dressy, attractive and comfortable, cool.

MISSES' AND SMALL WOMEN'S SIZES: 14 to 22 years; 32 to 40 inches bust measure; waist and hip measurements in proportion.

When ordering, state bust measurement; also length from back of neck to bottom of hem. Read "How to Measure" on Page 8.

14 F 259 Knitted Dresses are now the popular thing. So many well dressed girls and women wear them, and no type of dress looks more trim and smart.

We are offering this very attractive plaid model of Wool Mixed Knitted Worsted at a notably low price for such a new fashion. The small percentage of cotton in this fabric is added for strength and durability.

The slim, straight line of it is the very newest style for spring, as are the long, tight sleeves with turn-back cuffs. Turn-back collar, patch pockets in sports style, and a last finishing touch of smartness in the wide belt of leatherette. There is a good reason why so many young women prefer these knitted dresses. They slip on so easily over the head, you fasten the belt and you are dressed. They are comfortable to wear, and you have the assurance of always looking trim and smart.

WOMEN'S SIZES: 34 to 44 inches bust measure; waist and hip measurements in proportion.

When ordering, state bust measurement; also length from back of neck to bottom of hem. Read "How to Measure" on Page 8.

14 F 259—Camel Brown.
14 F 261—Gray. PRICE, **$4.88**

14 F 535 Another popular New York style. Everywhere you go, you see well dressed young women wearing knife plaited Skirts with trim, smart Jacquettes.

We have made this model in two of the most favored spring materials. The skirt is Romance Crepe and it is in camisole style, with a whole camisole top of crepe. You slip it on, exactly as if it were a princess slip.

Over it goes the jacquette of Fancy Krepe Knit, figured in soft, harmonizing colors. The sleeves and turn-back revers are in plain color to match the skirt. Did you notice how the jacquette drapes prettily into a buckle.

Every detail of this dress shows the fine regard our buyers have for good material and good workmanship. For example, the vestee (really the top of the camisole) is finished with hemstitching. These things come from having a high standard of quality.

MISSES' AND SMALL WOMEN'S SIZES: 14 to 22 years; 32 to 40 inches bust measure; waist and hip measurements in proportion.

When ordering, state bust measurement; also length from back of neck to bottom of hem. Read "How to Measure" on Page 8.

14 F 537—Navy Blue.
14 F 539—Gray. PRICE, **$12.98**
Postage, 10¢ extra

14 F 263 The material in this Dress is a Silk Mixed Pongee with small white dots. It has a silky finish that gives a dressy appearance. You will probably save it for more important occasions, but it is practical enough to wear at home on summer afternoons.

Isn't the collar an attractive touch? The dress slips on over the head, and fastens at the side with three buttons, as illustrated. This button trimming is carried further on the skirt to finish the wide side fold. Trimmings and pipings are of plain color pongee. The sash is long enough to tie in a pretty bow.

In buying dresses, keep in mind that Ward's always plan to get the prettiest styles at low prices. With our catalogue at hand, you can feel that you are in a big city store, with the finest spring and summer fashions before you.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 22 years. Waist and hip measurements in proportion.

Three Suit Bargains with Unusual Features of Style and Value

Women who examine our materials and tailoring for the first time, are always surprised at the exceptional quality for the price. We are often asked how our prices can be so low. There is no secret about it—just plain, everyday business. Through this catalogue we serve more than five million customers. In buying for them we have to place huge orders, and therefore get tremendous price advantages from the best garment makers in the country.

Ward's policy is to pass all such savings on to its customers. And in this catalogue you will find hundreds of opportunities to make actual cash savings on good, dependable merchandise.

Smart, Practical Sports Suit

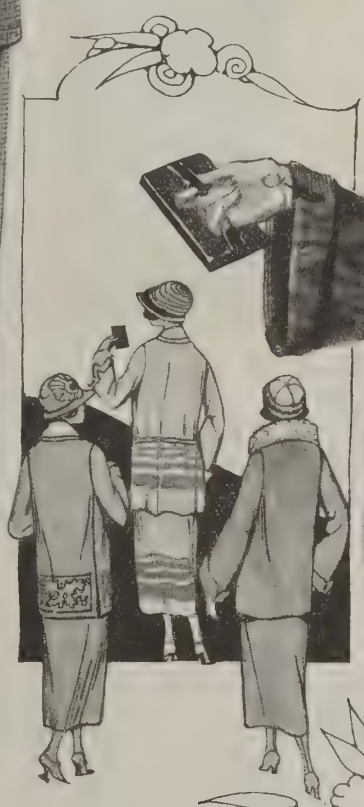
10 F 1103 This Suit is one of our very best values. It is a suit of All Wool material—a Tweed in the popular camel's hair finish. The attractive stripes are woven right into the material. You will find it an exceptional quality for a suit priced as low as $9.98.

The tailoring and workmanship are also unusually well done, so that the suit could readily be judged a high priced model.

Tuxedo style, with pockets at each side. The coat is 30 inches long. No lining, of course, because of the weight of the material. Sleeves have turn back cuffs, stitched to match the color in the stripes.

WOMEN'S SIZES: 34 to 44 inches bust measure; front length of skirt, 32 to 38 inches.

MISSES' AND SMALL WOMEN'S SIZES: 16, 18 and 20 years; bust measure 34, 36 and 38 inches; front length of skirt, 30 to 37 inches.



When ordering, state bust, waist and hip measurements, and front length of skirt; also height and weight. Read "How to Measure" on Page 8.

10 F 1109
Moire Faille
$18.98

10 F 1101 Did you know that the Tailored Suit has come back again as a leader in women's fashions? A year ago, where the well dressed woman was seen in a dress, she now wears a smart, tailored suit.

We offer here a special value in a stylish tie-at-the-side suit. It is the popular navy blue All Wool Serge model—one of the most practical investments a woman can make.

The coat is made in the new, short, 30-inch length. Sleeves are long and well tailored. The collar runs into the tie sash at the side. The braid embroidery makes an effective trimming.

Because so many women prefer a touch of white, we have added a detachable collar of linen. The bargain price has in no way affected the quality. The suit is tailored to our usual high standard, with seams excellently finished and pressed. The lining is an attractive silk-mixed material.

WOMEN'S SIZES: 34 to 44 inches bust measure; front length of skirt, 32 to 38 inches.

MISSES' AND SMALL WOMEN'S SIZES: 16, 18 and 20 years; bust measure, 34, 36 and 38 inches; front length of skirt, 30 to 37 inches.

When ordering, state bust, waist and hip measurements, and front length of skirt; also height and weight. Read "How to Measure" on Page 8.

10 F 1101—Navy Blue only.

PRICE, **$18.98**

10 F 1109 This Suit is our value offering in one of the newest fashions—a skirt and coat costume of silk mixed fabric.

We offer it in a moire pattern, because moire is what smartly dressed women are wearing.

The material is a Silk Mixed Faille, woven to look like moire. It makes a really beautiful suit, and one that certainly looks as though it cost more than $18.98.

Every line of it is in the best spring and summer fashion—the slim fitting, 30-inch coat, the side closing, the flattering collar of genuine Mouffon fur. No sleeve is more graceful than this flare model with turn back cuff. Skirt is entirely plain to carry out the straight lines. Coat has lining of a fancy silk mixed material.

From the standpoint of quality, it is exceptional; from the standpoint of style, lovely.

We recommend it to the woman who wants to wear a suit right through the warmer weather, and also to the woman who likes something dressy and distinctive.

WOMEN'S SIZES: 34 to 44 inches bust measure; front length of skirt, 32 to 38 inches.

MISSES' AND SMALL WOMEN'S SIZES: 16, 18 and 20 years; bust measure, 34, 36 and 38 inches; front length of skirt, 30 to 37 inches.

When ordering, state bust, waist and hip measurements, and front length of skirt; also height and weight. Read "How to Measure" on Page 8.

15 F 23 When you take this Blouse out of its box, you are going to say, "What lovely embroidery." Every stitch was done by hand by native women in Porto Rico—you can imagine how fine it is.

You may have this blouse in two materials. Genuine English Broadcloth with the strength of cotton and appearance of silk. It will wash and wear wonderfully. The other material is soft, dainty Batiste, fashionable to wear with your Spring suit. The style is the popular overblouse. The hip band buttons on the broadcloth model, as pictured, and ties with a sash on the batiste. Becoming Peter Pan collar. Turn back cuffs, which look so trim and pretty with suits or sweaters.

Our price on this blouse is remarkably low considering that there is so much embroidery and that the materials are both of such good quality.

15 F 59 This Overblouse is made of an unusually attractive material—an artificial Silk Mixed Canton, similar in weave to Faille. And because the material is so pretty, the style is quite plain with surplice collar, cuffs and buttons of Krepe Knit, in a contrasting color.

What a comfort these blouses are to get into. You can dress quickly—it takes only an instant to fasten the hip band closing. A splendid style for women of middle age, but just as pretty on the young miss. These blouses go very well with the popular plaited skirts. See Pages 66 to 68—our Skirt section.

15 F 47 While you will probably want this outfit complete, you may order the Blouse separately if you desire. It is a very good value at our low price, as it is not often that any concern offers a dimity blouse for 95¢. Made in the overblouse style; embroidered collar and cuffs; smart black tie. The kind of blouse so much in demand for sweaters and spring suits. Knowing Ward's high quality, you can confidently expect a splendid value.

15 F 55 A pretty, inexpensive Blouse splendid to wear with suits or separate skirts. The material is a Cotton Crepe, trimmed with fancy Crepe in harmonizing colors.

The Jacquette is popular for two very good reasons—you can slip into it easily, and it looks well on any type of woman. Hip band ties at the side. The collar surplice effect with points at shoulder is unusually becoming.

At the low price that we ask for this blouse, the materials are very good and the style is pretty and tasteful. We consider it one of our best blouse values and know you will be pleased.

15 F 31 It is considered very fashionable now to use fringe as a trimming. So we have finished the band of this Overblouse with fringe.

The material in the blouse is plain Tricolette with a stripe of Puckerette Tricolette woven in in crepelike effect. With such a charming material the simple style is all the more attractive. It slips over the head—the neck is finished with a tiny bow at one side. Sleeves have cuffs. An excellent blouse in the favored colors.

15 F 37 This Blouse is made of a Silk and Cotton material which resembles Tussah—a neat printed design in soft, pretty colors. If you are looking for a blouse to wear with your suit or separate skirt, we suggest this model, the colors will harmonize so nicely.

The maker of this blouse takes especial pride in the way he finishes garments, so we can confidently say that it is unusually good for the money. Don't you think the ripply frill at the side a charming touch? It is finished with buttons that continue on the hip band. The sleeves are long, in the new fashion, opened at the wrist, with neat little cuffs. Notice how cleverly they are bound. An excellent value.

15 F 81 The colors in this Blouse are lovely—one of the prettiest prints we have ever seen. The material is a soft Silk and Cotton Crepe, which makes the blouse summery and dainty.

In line with the newer spring and summer fashions; it is simply made in jacquette style, tying at the side in a graceful bow. Surplice side closing. Our illustration can scarcely do justice to it—the making is so fine and the quality so unusual at our price.

If you have a navy blue suit or separate skirt, this would be an extremely becoming blouse, because the soft, colorful print will make such a pretty contrast.

15 F 65 We always do recommend Pongee Blouses, because they are such general favorites. Pongee wears and washes wonderfully and always looks pretty—with a style quite its own. School girls and office girls wear pongee blouses because they do not soil as easily as white blouses.

How do you like the new monogram fashion? It is a fad that started in Paris and New York, and is now popular everywhere. It lends a smart, little touch—something different and clever. We are offering this blouse in both cotton and silk pongee, so that you have your choice. Both are excellent values and will prove Ward's quality to you.

This is the style that we advise you to wear with tailored suits, or with plaid and plaited sports skirts. Plain, slip-over overblouse with hip-band that buttons and turn back collar.

15 F 85 We do not believe we have ever offered a Blouse of finer quality than this one.

This is an exceptional blouse, combining Spanish lace with All Silk Crepe de Chine, finely plaited. The picture shows you better than words how charmingly it is made—with loose sleeves that fall over the arms, and a square neck, formed by the plaited front and back. It comes in shades that go well with suits and the new separate skirts. Fastens at side.

This is the style of blouse that, in a city store, would be featured for its style and value—and the price would be considerably more than we ask. The excellent materials and careful, skillful workmanship make this one of our best blouse values and one of our finest offerings.

15 F 77 Something new in this Silk Pongee Blouse. A favorite, long wearing pongee printed in delightful printed design. The colors are the high shades, but pretty in a soft, tasteful way.

Of course it is made in the handy over-blouse style. No other fashion is so appropriate for fancy material. Slips over head. Sleeves are finished with bands suggesting cuffs. At the neck is a tiny, feminine bow. We consider this blouse a splendid value at the price, both in style and quality.

15 F 69 If you prefer, you may order the frilled Blouse of this outfit separately. For details of Sleeveless Jacket, see 15F71.

The blouse is made of Striped Dimity. Every woman knows how well it launders. The prettiest thing about it is the trimming—the plaited collar and cuffs, edged with lace. A black ribbon passes through a slash in dimity, making a smart tie.

A low price for such a pretty style and a material so popular.

15 F 71 These smart Sleeveless Jackets are being worn with sports skirts, and especially with summer outfits of white skirt and white blouse. They add a pretty touch. The material in this model is a Fancy Cotton Check, a loosely woven fabric, light enough to be comfortable for summer. The edges are bound with Silk, in a contrasting color. The closing is low, with buttons slightly to one side, as is the very newest fashion. There are two pockets, of course, since it is a sports style.

15 F 75 Made of English Broadcloth—famous for its silky appearance, its great durability and because it washes and irons so easily. The embroidery is done unusually well; the edging on the collar and sleeves is an Irish picot pattern. It would be lovely with a tailored suit, or with a light summer skirt.

For such a low price as $2.95, this blouse is sure to impress you as a splendid value.

15 F 91 This slip-over Sport Blouse is certainly a good value. You will notice that it is knit of All Wool worsted yarn, in the two-pocket style now so popular.

The striped effect is also fashionable, and it is much prettier than the picture can show, because of the nice combination of colors. When you compare values, you realize what a low price this is for a knitted blouse of all wool.

15 F 97 In New York, when a style is new and striking, they call it "smart." This is certainly the word that best describes this comfortable Blouse. It is as smart a fashion as you would see anywhere. Sleeves and back are plain—the front and collar a lovely plaid. It is All Wool worsted in a light, fine weave. May be worn as a blouse or over a blouse. Plaid effect is in two colors only.

THE pretty styles shown in this catalogue are described to you by a woman who has had years of experience with Women's Fashions. When she writes each description, she has the garment before her and makes a careful analysis as to materials, style and value. And she tells you about the garment exactly as it is—just as you yourself would see it if you were to visit our store personally and make your selection. You may order any garment from these pages, and know that it will be exactly as described.

15 F 119 The pretty design on the front of this Blouse is woven in bright touches of color. The blouse itself is an All Wool worsted—the design in fiber silk. You can wear it as a blouse, or over a blouse or frock.

Knit blouses are being worn for all sports wear and a great many women prefer them to other blouses. Popular hip band style, buttoning at one side. The collar is the roll back style, now most fashionable.

The quality in this blouse is especially good, being knit in a firm, even weave, and finished carefully, to prevent stretching.

15 F 125 Shirtwaist of All Silk Pongee. Made so that the collar can be worn high—tailored fashion. The style will appeal to the woman who likes to wear this type of blouse with her spring suit. The shoulders are made like a shirt. Rows of pin tucks trim the front. The long sleeves have neat, little turn-back cuffs.

All women who have worn Pongee know what an economy it is. They know how well it wears and how beautifully it launders. For that reason, a pongee blouse will stay pretty a long time.

We know you will readily recognize the splendid value when you see this blouse.

15 F 267 Many women will like the style of this Middy with a Peter Pan collar, something new and attractive.

You may order it in Khaki—the usual tan color; or in Peggy Cloth—a strong durable cotton that comes in a becoming, pretty shade of blue. Nicely made with bindings of white around collar, turn back cuffs, and hip band. White buttons match up nicely.

For a school girl who wears middies most of the time, or for the woman who wants something different, this model comes as a pleasing change.

There is one thing you can always remember about our middies—we set a high standard of value for them. We are careful to select only standard quality materials, and before we send a middy out to you, it is inspected.

15 F 271 Last summer Ward's Fashion writer happened to notice a party of tourist campers. The woman in the party was dressed in a tan khaki middy and skirt.

She was doing the cooking, and we couldn't help thinking how neat and comfortable she looked. She said they had been on the road several days, which proves that there is nothing like Khaki for camping or outdoor use. It doesn't soil easily, and you don't need to worry about its tearing. It is almost as strong as a man's overalls.

This Middy has a turn back collar with black tie that extends completely around the neck, and embroidered monogram. Short sleeves, with narrow turn back cuffs. Shoulder seams sewed double.

Ideal for the outdoors woman who demands comfort, but realizes the importance of looking neat.

Practical Styles for Girls

In selecting these Dresses for you, we had in mind two things that mothers always consider when they buy girls' dresses.

The first, of course, was quality. We assure you that you can select any dress shown on this page, and know that the materials are of the best and details of making have been just as carefully handled as if you yourself had made it.

Economy is one of the first thoughts of thrifty mothers so we have priced these dresses so low that every one represents an exceptional value. It is hardly worth your while to make your girl's dresses, when you can buy these pretty styles so reasonably.

36 F 301 A neat little Dress for afternoons, and the price is exceedingly low. Seldom will you find a dress like this for $1.95.

The style is plain and becoming, and it will launder easily and nicely. The material is Linene, and every detail of the sewing is done in a way to suit particular women. Trimmings, as pictured, in fresh, dainty white, with buttons of white crochet. The shirring at yoke gives a becoming line. Convenient side front closing. The dress is such a splendid value, we would like to see all of our customers wearing it.

WOMEN'S AND MISSES' SIZES: 34 to 44 inches bust measure; 16 to 20 years.

State size wanted.

11 F 707 We are offering this Fur Jacquette at a very special price. If you buy it now you will make a substantial saving. You can wear it for colder days and evenings this spring, and you would have it ready for next fall. This is a very smart and practical fashion that any woman seems to look her best in and one that will be even more fashionable in fall. As illustrated, the fur is Natural Coney, tan shade. Fastening at side with decorative buckle. Lining of Sateen in a charming printed design. The low price does not, in any way, affect the dependable quality which we always maintain in our furs. Length, about 30 inches.

WOMEN'S AND MISSES' SIZES: 16 to 20 years; 34 to 44 inches bust measure. **State age and bust measurement.**

10 F 915 Two of fashion's favorite touches are combined in this Knife-plaited Skirt, with the popular wrap around closing. The material is All Wool Crepe, practical because it holds the plaits so well. Our price makes it an excellent value, because it is of such good quality.

WOMEN'S SIZES: 24 to 32 inches waist measure, hip measurements in proportion. Front length, 32 to 39 inches.

When ordering, state waist and hip measurements; also front length. Read "How to Measure" on Page 8.

10 F 925 An inexpensive Skirt, unusually good looking, at a very reasonable price. The material is distinctive—Wool Mixed Crepe, with plaid design in fiber silk. The plaits are arranged in clusters—box and knife plaits—with rows of buttons at side. Made with a wide sweep, which in our judgment, is necessary for a plaited skirt to make it hang nicely.

WOMEN'S SIZES: 24 to 32 inches waist measure, hip measurements in proportion. Front length, 32 to 39 inches.

When ordering, state waist and hip measurements; also front length. Read "How to Measure" on Page 8.

10 F 947 One of Fashion's newest favorites is plaids—beautiful, colorful plaids, as in this pretty plaited Skirt. Nothing is smarter, and the fashion comes as a pleasing change after the plain colors recently worn.

This material is an All Wool Skirting, with an uneven finish suggesting homespun. It wears very well, and the weight is just right for Spring and Summer. To make it all the more fashionable, it is plaited with box and cluster plaits. This is especially pretty because it brings out the colors in the plaid. Pointed tabs with buttons trim the skirt at the belt, as illustrated.

WOMEN'S SIZES: 24 to 32 inches waist measure; hip measurements in proportion. Front length, 32 to 39 inches.

10 F 953 When you wear this Skirt, you can be sure you are in good fashion. It is plaited in the fine, even plaits that look so pretty, and the rows of buttons at the side suggest the popular wrap around effect.

It is also a skirt of the most excellent quality. So that the plaits will hang nicely it is made with a full sweep of a fine All Wool Men's Wear Serge. Nothing could wear better, and no material, at the price, is as satisfactory. It is a model we can heartily recommend, both for its value and style, to the woman who buys her clothes carefully.

WOMEN'S SIZES: 24 to 32 inches waist measure; hip measurements in proportion. Front length, 32 to 39 inches.

10 F 1001 Larger women will like this Skirt for two reasons: The plaits make it comfortable for walking, and it has the neat, straight lines becoming to stout figures.

The plaits are set in as panels with button trimmed pockets as illustrated. The back is plain with just enough gathers to give graceful fullness. We offer the model in two materials—Wool Mixed Tweed or a durable All Wool Serge.

STOUT SIZES: 33 to 39 inches waist measure; hip measurements in proportion. Front length, 35 to 41 inches.

11 F 745—Beige (Tan). PRICE, **$5.98**
Postage, 6¢ extra

10 F 1005 The favorite fashion is Skirts in the knife plaited model, and the favorite material is All Wool Crepe. Because they are nearly always worn with sweaters or short jacquettes, we offer a wide range of colors so that you can have an attractive costume in any color you prefer.

You could not buy a more fashionable skirt, or one better adapted to the stout figure. The two box plaits at the side give a slenderizing line, and we have added a tasteful button trimming. An important thing is the width. We use enough material to get a graceful line and to make the skirt hang well.

STOUT SIZES: 33 to 39 inches waist measure; hip measurements in proportion. Front length, 35 to 41 inches.

11 F 747 Ward's finest one skin Choker of Genuine Stone Marten. The pretty colorings in this fur make it Fashion's favorite for spring and summer. Length, including tail, about 33 inches.

11 F 747—Genuine Stone Marten.
PRICE, **$29.98**
Postage, 6¢ extra

Correct lines are essential in stout women's styles. You who require the larger sizes, know that. Ward's stout sizes are carefully made along these lines; and you will find them just as smart as those for the women of smaller figure. We have made a special study of them, and know that you will find Ward's selections are well tailored, have real style, and, most important of all, fit well. And they can not be surpassed in value. 10 F 1017 The All Wool Plaid Skirting in this model has the attractive, uneven finish of the popular imported woolens. We can thoroughly recommend it for wear, and in style, nothing is more favored than plaid with its harmonizing contrasting colors. Made in the popular box and cluster plait fashion with braid trimmings, imitation pockets and arrow heads. An excellent value.

Woven Wire-Flexible Models

Comfortable Corsets

All the Corsets shown on this page are boned with flexible woven wire exactly like that shown in the circle. That is the reason they are so comfortable—bending easily with every body movement and yet retaining their trim, smooth fitting lines when the figure is erect. Among the eight styles illustrated, there is one which will exactly meet your figure requirements.

Closed Style Athletic Suit

Women, too, are finding that nothing is more comfortable for summer wear than Athletic style Union Suits. An extra good value in a suit of pajama check nainsook made in the popular closed style, the drawers cut full and roomy so they are just as convenient as the open style. Bodice top finished with hemstitched band and self material shoulder straps. Mercerized draw tape. A quality which is practical for every day because it wears well and is easily laundered.

SIZES: 34 to 44-inch bust.

Pajama Check Nainsook Suit

For general wear in warm weather you will find this a most comfortable Union Suit. And at 63¢ it is remarkably low priced. Made in the favorite Athletic style of pajama check nainsook (all white). A mercerized draw tape adjusts the bodice top and the shoulder straps are of the nainsook. Open style with wide lapped seat. Elastic ribbed insert across back at waist line allows plenty of room for bending over. Until you have worn one of these roomy athletic suits you cannot know how practical they are.

SIZES: 34 to 44-inch bust.

Save Money [by Making Your Own Silk Vests

Silk and Fiber Vest Tubing

$1.39

Dainty silk and fiber Tubing, suitable for making women's vests. Plain tricot weave with the softness of fabric and sheen that you would find in pure silk, but a much heavier quality which wears well and launders nicely. Twenty-seven inches of the tubing, enough for one vest, twenty-eight inches of shoulder strap material and forty-two inches of draw ribbon, all put up in sealed envelope so they may reach you fresh and dainty. To make the vest, simply hem the ends of the tubing, attach shoulder straps and put in draw ribbon.

Keeping Up Our Quality Standard

IF YOU could only visit our complete Analytical Laboratory, you would see the careful tests and methods which safeguard the quality of all of Ward's merchandise. Then you would readily understand how we have been able to win and keep the confidence of more than five million customers.

Our greatest asset is your faith in the name Montgomery Ward & Co. Our printed statement is our word of honor. When we tell you in our Catalogue that a suit or dress is all wool—it means every single thread! Or that our paint contains no water or fish oil—not a drop of these materials has been added!

For Your Protection and Ours

To make sure that every article of merchandise fully measures up to Ward's standards of quality and the claims we make for it, is the purpose of our Testing Laboratory. Here carefully trained and expert chemists work day after day with modern, scientific equipment. Their duty is to instantly detect any deviation from the high quality standards that we have established for the goods that we offer.

Every sample, before it is finally accepted by our buyers, must pass complete laboratory tests to be sure of the quality. Then a complete record is kept, and careful inspections are made after the goods are received. Every article must be as good as the sample. Thousands of dollars' worth of merchandise submitted to us each year is rejected because we do not consider it good enough to offer to our customers.

Safeguards To Quality

We insist on the very highest quality for all of our food products. They must be free from any adulteration and must conform to all pure food laws. And our drugs must conform strictly to U. S. P., or government, standards—for your protection.

Textiles are carefully tested for quality, and if a garment is only 50% wool, we tell you so very plainly. Shoes, gloves and shirts are tested not only for quality but for size also—your assurance of correct fit. And so on down the line. Everything from a package of pins to a gasoline engine, is thoroughly tested and approved before it is offered in our catalogue. That is why you can always depend on Ward's quality.

In the above view of Ward's Laboratory our chemist is testing steel to determine whether it contains the proper amount of carbon, to insure hardness and tempering qualities. This test is given tools, knives, razors and articles requiring the hardest steel. Other metals are tested just as carefully.

All woolen and cotton materials, as well as rope, twine, chains, wire, etc. are thoroughly tested for strength and wearing quality.

Magnified to a thousand times their actual size under high power microscopes—all impurities or adulterations are soon detected by the experts in Ward's Testing Laboratory. This careful microscopical examination is given to all food products, drugs, textiles, paint, cosmetics, etc., to safeguard quality.

The Name Longwear Means Much to You

We never permit even the slightest change in the fine quality of our Longwear Sheets and Pillow Cases. The cost of raw materials and the cost of manufacturing change with conditions, but Longwear quality continues to give uniform and universal satisfaction. Every yard is sturdily woven from select cotton with a smooth, even finish, and torn by hand to insure straight edge after laundering. They are offered as convincing evidence that you get most for your money at Ward's, no matter what you buy here.

We advise you to order early—and then you can finish your sewing before the rush of the busy summer months. Be sure to order sheets at least 18 inches wider than your beds, and order pillow cases according to the size of your pillows. You will find that both sheets and pillow cases will give most satisfactory service if you follow the above directions. No doubt you will notice, in going over your supply of sheets and pillow cases, that the signs of hard winter wear are very evident. You should add to your supply; and these sheetings will prove highly satisfactory.

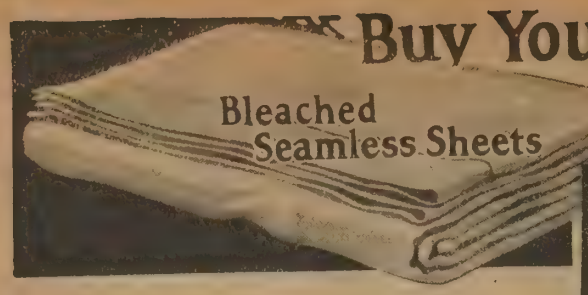
They are pure white and are hemmed before scalloping to give double strength along edge of scallop. Very nicely and durably finished and launder beautifully. Particular housekeepers choose them for their beauty and service and they make lovely gifts for the bride. Cool, comfortable pillow cases such as these add much to the attractive appearance of your beds.

You can now have an ample supply on hand to meet this increased demand as well as for the emergencies which are sure to arise in any home. These pillow cases are conservative in style but are prettier than the plain hemmed pillow cases. Very easy to launder and the scalloping will not fray out



These are offered at a reasonable price and you will find it is as economical to purchase them ready made as to take the time and effort to make them at home.

Nashua Fine Cotton Blankets

Formerly Known As Wool Nap

Nashua fine cotton Blankets are warmer because, under the Nashua Process they are made like wool blankets. Wool is warm because of its structure; the crinkly fibers form countless little air spaces, while ordinary cotton fibers usually lie smooth and flat. The Nashua Process practically gives to cotton the structure of wool.

Longwear Wide Sheeting

Plenty of sheets and pillow cases are essential to good housekeeping. And they should be good quality, too. As soon as sheets and pillow cases show signs of wear, you should buy several new ones so as to always have enough to satisfactorily meet your needs.

Buy our Longwear quality Sheeting and make your own sheets. You will find real economy in doing this, because you not only get a better grade of sheeting, but you also save the labor expense which every manufacturer must add to his cost.

Longer wear, pleasing appearance and satisfactory service have made this quality extremely popular. The threads are even so the sheeting will tear straight. Both bleached and unbleached qualities launder nicely. Thousands of customers order Longwear Sheeting year after year. Although it is low in price, they have always found the quality uniformly high.

Unbleached

Dependable Wide Sheeting

A complete stock of bedding marks the good housekeeper who is prepared for unexpected needs. She always insists upon quality, but also practices economy in buying her supplies. This Unbleached Wide Sheeting gives good service. Laundering really improves its appearance and it bleaches out when hung out in the sun to dry. Finished nicely, evenly woven of strong cotton yarns and is our famous Longwear quality, same as our bleached sheeting which wears so well.

We list five widths here which gives you the opportunity to obtain good sheeting in the width which you prefer. Also used for household purposes other than sheeting because of its durability. Makes serviceable coverall aprons and washes very well. Priced remarkably low for such good quality. You will make a real saving by buying at Ward's where you can get this exceptional quality at so low a price.

Bleached

Standard Quality Wide Sheeting

If you have never bought this Longwear Sheeting before, you will be surprised that such fine quality can be offered at a price so low. To our regular customers, Longwear Sheeting always means splendid service. Standard quality; bleached a pure white. Launders nicely and wears well. It is strong and evenly woven of cotton; well finished. Will meet your requirements if you want strong and durable material that will stand hard wear and frequent laundering. As sheets made from this wide sheeting require no center seams they are easy to make up.

Excellent for service as it gives long satisfactory wear; and priced at a distinct advantage because we made a large purchase of cotton goods before the market advanced which enables us to price our cotton goods very low considering the present market costs.

Buy now for your future needs. Make up sheets during your spare hours. They are easy to hem and thi quality always looks well.

Staple Domestics

Unbleached Muslin

Serviceable Quality

For nightgowns, underclothing, linings, and many household purposes, all of these Unbleached Muslins can be used satisfactorily. These are dependable quality muslins firmly and evenly woven of strong cotton yarns and nicely finished. They give better service than chemically bleached muslin usually sold at about the same price.

Until the last few years, unbleached muslin was used only to meet the ordinary needs of the household. Now it is used for many other purposes. The fine quality is especially desirable for bedspreads. Many housekeepers make very attractive spreads by embroidering designs in wool yarns appliqued designs in bright colors. **Sold in 10-yard bolts only.**

Keep the finish of your dining table as attractive as when new. These qualities of Table Padding are very good and durable. Cream color with soft face. An inexpensive protection for the finish of your table. Many housekeepers like these qualities as they can make up their pads in the size they have found best suited to their own needs.

It is economy, too, to protect the finish of your table and it is easier to do so by using good heavy table padding than in any other way. You will be glad to have a supply of this on hand when you want to protect the finish of a new and particularly pretty and well finished table.

Many housekeepers find that table padding serves a double purpose. Besides protecting the top of the table from hot dishes it is also desirable to prevent the noise of dishes on the table. Priced very reasonable for this quality.

Launder Like Linen

Something of real interest to every woman. Inexpensive tablecloths and napkins which are absolutely lintless and very durable. They are made of fine mercerized cotton yarn and have the genuine "Basco" finish, which makes them lintproof. The finish is permanent and lasts until the cloth is completely worn out.

These cloths iron smooth and hang like real linen. With their attractive appearance, and the lintproof feature of real linen, they are good enough for company. And at our low price you also can afford them for everyday use.

This is just another example of Montgomery Ward & Co.'s policy to give their customers the best values obtainable.

Finest Quality

Good Quality Linen Finish Tablecloth and Napkins

Good quality Basco finished Tablecloths bleached and mercerized, with Napkins to match. These cloths are inexpensive, yet have the appearance and feel of real linen and will not lint. These cloths launder easily, remain white and always look well. The finest cotton yarns are used in making this cloth, assuring the longest possible wear. The patterns are as attractive as those found in fine linen damasks. Give this new cloth a trial; you will be greatly pleased with it. For square or oblong tables.

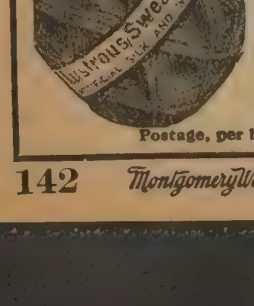
High Quality Knitting Yarns



To insure absolute uniformity of color, it is advisable to order sufficient yarn at one time to complete a garment. If necessary to reorder, enclose a sample.

Four-Ply Knitting Yarn
A soft, four-ply wool Yarn easy to work with. It is good and heavy—the kind you want to put into a warm comfortable sweater for outdoor use. Will give unusual service as each strand is strong, evenly woven and medium loosely twisted. Articles made with this yarn will retain their rich soft appearance and smooth fit because it is so elastic. Knitted garments make practical as well as smart additions to a woman's wardrobe. The colors are standard; however, it is always well to order enough wool at one time to complete a garment to be sure it will be absolutely uniform in color. Always enclose a sample of the wool you want matched. Our book of knitting instructions listed on this page will give you many new ideas for the use of yarn, as well as instructing you in the use of new stitches. The directions are clear and easy to follow. Net weight, per skein, 4 ounces.
COLORS: Navy blue; cardinal; khaki; medium gray; black, or white. State color wanted.

22¢ A Ball **Superior Quality Shetland Floss**
Loosely twisted two-ply Floss Yarn. It will make up beautifully in the lighter weight sweaters, scarfs, children's leggings or coats as it is so soft and full bodied. Shetland Floss has always been a standard knitting material, both because of its beauty and its good wearing qualities. Order enough yarn at one time to complete a garment. If more is needed, send a sample of yarn.
COLORS: Light blue; pink; cardinal red; dark gray; old rose; lavender; Nile green; orange; Copenhagen blue; navy blue; green; black, or white.

Thornward Dress Form

$12.50

18 Section Adjustable

Duplicate Your Figure Perfectly

Easily and Quickly Adjusted to Any Size

Collapsible Skirt

Can Be Stored in Small Space

With the aid of this easily adjusted Dress Form, the home dressmaker is able to fit her own dresses perfectly. Dresses for the family, too, are much more quickly made.

The bust, waist and hips of this form may be increased or decreased individually in size, and raised or lowered; the back, front and underarm may be lengthened or shortened independently; neck made large or small, and skirt adjusted to any length. The sections operate on friction slides.

You can fit a dress while seated comfortably in a chair. The form may be lowered to any desired height, and you can adjust a collar or arrange a trimming without tiring yourself by long standing.

Skirt is collapsible, making a total height of 36 inches. It is easily put away out of sight in a closet. One of the most convenient dress forms we know of as well as one of the best made.

The fiber papier mache body is covered with jersey cloth which takes pins easily. Heavy enough to withstand reasonable use without crushing. Lower part of stamped nickeled flat steel bands.

New Curlers Can Not Burn Your Hair

Convenient and Reliable

With these new Curlers you can curl your hair just as quickly as with the old fashioned iron—and much more safely. Positively will not burn the hair. The hair is first wrapped around a hollow bar much as with an ordinary curler. The extra metal rod is heated and thrust inside the cylinder holding the hair. This gives a quick effective curl and the heated bar does not come in contact with the hair. Rod is held by a patented device that prevents its touching the surrounding metal. Full directions included.

Always Measure the Left Foot

Use This Chart Exactly as Illustrated Above and You Will be Sure to Find Your Correct Size

Place Heel of Foot on this Dotted Line

How to be Correctly Fitted

AT the bottom of this page you will see an illustration which shows clearly how simple it is for you to use this chart. Just place the catalogue on a chair, remove your left shoe and place your heel on the dotted line, at the same time holding a stick firmly in place. The line appearing nearest to the big toe shows you the size you should order. Always measure the left foot. We are very anxious to help you in every way possible to secure perfect fitting shoes, and we have spent much time in developing the chart on this page. It is especially necessary for you to measure the children's feet every time you order shoes for them, as you know their feet grow fast and larger sizes are needed almost every time you order a new pair of shoes for them. We don't believe it is possible to make better fitting shoes than we offer, as the lasts are selected by men with many years experience in buying shoes. Use the measurement chart for a perfect fit.

Mention in Your Order All Numbers in the Shoes You Are Now Wearing

IF your old shoes fit satisfactorily, it is always advisable to place on your order all the markings shown on the inside of the old shoe. Be sure to copy all the markings, including the dashes. A dash may mean a half size larger. For example: 5— may mean size 5½.

If you require a very narrow shoe or an extra comfortable, soft shoe, or must wear a brace under your arch, you will find below the page on which you can find a special style for your particular need.

Explanation of Our Shoe Widths

We Have the Right Shoe for *Your* Foot

Goodyear Welt Shoes

Goodyear Welt Shoes for Women are shown on Page 170; for Men on Page 183. It is the best sole construction known to manufacturers; cheapest in the end.

Extra Wide Shoes

Extra Wide Shoes for Men are shown on Page 182; for Women, on Pages 175 and 176. These shoes are made EEE and EEEE wide. They are shaped correctly.

Arch Support Shoes

Smart Walking Oxfords with arch supports for Women, Page 170; for Men, Pages 182, 183. Invisible arch supports sustain the arch and prevent the ankle from turning inward.

Hand Turned Sole Shoes

Hand Turned Sole Shoes for Women are shown on Pages 171 and 175. Supreme for comfort—the flexible soles bend easily with every step you take.

Extra Narrow Shoes

On Pages 170, 171 and 172 is shown Footwear in extra narrow widths for Women. On Page 183 are Shoes in extra narrow widths for Men. They are extra in quality, too.

Short Vamp Shoes

Special Short Vamp, Wide Ankle Shoes for Women shown on Page 176. Made especially for heavy, chubby feet. The vamp is extra short and wide; well fitting and comfortable.

Wide Ankle Shoes

Wide Ankle Shoes for Women are shown on Pages 174, 175 and 176. Popular for both dress wear and for everyday wear, where comfort is most desired.

Wide Ball Shoes

The ball of the foot is the fleshy part of the bottom, back of the toes. On Page 182 is a fine quality Shoe for Men, built to fit comfortably the wide ball part of the foot.

Footform Shape Shoes

Footform Shape Shoes for Children are shown on Pages 177, 178, and 179 They follow closely the natural outline of the child's foot; no cramping of the toes.

How to Fit Rubbers, Boots and Arctics

Place your shoe on a piece of plain paper. Draw a line with a pencil all around the edge of the sole and heel. If possible, see exactly what numbers appear on the inside of the shoe and write them on the paper with the outline. Be sure to state whether the rubber is for a high or low heel shoe. A high heel rubber will not stay on a low heel shoe, neither will a low heel rubber stay on a high heel shoe.

On Pages 187 and 188 you will find every kind of rubber, boot or arctic for all kinds of weather. Heavy, fleece lined rubbers for men, women or children to keep feet warm and dry in cold wet weather. Light weight rubbers or arctics for everyday wear. Heavy arctics that stand lots of hard wear. Heavy rubber boots, leather top combinations—all new and fresh goods at unusually moderate prices.

Shoe Terms Explained

Solid Leather

When we say a shoe is made of "solid leather" we mean that the **outsole, insole, counter** and **uppers** are genuine leather. These shoes will give the longest wear a leather shoe can give. Solid leather also assures permanent shapeliness, which means comfort to your feet during the entire life of the shoe.

Turned Sole

The "turned sole" process of fastening the sole to the upper is highly satisfactory in women's comfort shoes and slippers, women's dress comfort shoes and in children's shoes. The method is famous and popular because of the extreme flexibility it gives to the sole, which must be cut from choice quality leather.

Chrome Sole

In sole leather the full thickness of cattle hides is used. Chrome tanned sole is absolutely the strongest and lightest sole leather. The chrome tanning process makes leather very tough, and heavy. A chrome mineral substance used as a filler literally makes it wear like iron.

Genuine Goodyear Welt

The Goodyear Welt process of attaching a sole to the upper is **founded absolutely** on the hand lasted, hand sewed and hand finished method. The Goodyear Welt process is universally recognized as being without a peer in all the qualities which make a good shoe desirable. The Goodyear Welt process makes the most durable and comfortable type of shoe, and one on which the outsole can readily be renewed. Do not confuse this with Goodyear stitched, as this is a cheap process and is quoted only to secure prestige from the Genuine Goodyear Welt process. Goodyear stitched is made without a welt and its use in descriptions is often misleading.

Insole

The quality of the insole has an important bearing on the length of wear a shoe will give. We never sacrifice the quality of an insole. We use the best of genuine leather, guaranteed, and cushion insoles. This is only another reason why Montgomery Ward & Co. shoes are famous for quality and value.

Patent Leather

We use only chrome patent leather in all our shoes described as "patent leather." Patent leather is made from genuine leather over which a patent finish is thoroughly rubbed into the fiber of the leather and dried in direct sunlight, which produces a firm, glossy coat.

Gunmetal

"Gunmetal" is a name which applies to a fine grade, well finished black leather. It is chrome tanned with a dull or semi-bright finish. Popularly used in men's, boys' and children's medium and better grade dress shoes, and also in women's walking shoes and oxfords. Gunmetal leather is famous for its softness and serviceability.

Stitchdown

This sole fastening process leaves the inside perfectly smooth. The edge of the upper is turned outward on the sole and stitched straight through. There are no nails, tacks nor threads inside of shoes made this way. Generally used in children's play and dress shoes and barefoot sandals.

Shoes of Guaranteed Quality at Prices That Save You Money

"I Never Saw Better Values Than The Shoes On The Opposite Page"

500,000 Pairs Bought at One Time Reduced the Cost to "Rock Bottom"

From the two 1923 Fall Catalogue pages, reproductions of which are shown above, Ward's customers saved almost half a million dollars

Quality Has Not Been Lowered to Secure These Low Prices

IT is not low prices that sell our shoes—because shoes can be made to sell at *any price*. It is quality, merit and value that sells them—So we ask you not to judge the quality of these shoes by their low price. When you buy your shoes you are entitled to a definite amount of wear for the price you pay. It is our duty to see that you get it.

Quality Always Comes First

Shoes, like everything else Ward's sells, have to be right or we don't offer them to you. They must contain good materials, high class shoe making, good finish, correct shape and smart style. *Quality in Ward's shoes is never a matter of chance.* We know before we receive our shoes from the factories that the quality will be there, because we order them made that way. And we always make it a point to tell you exactly what kind of shoes to expect.

Why Ward's Shoes Wear

Ward's Shoes are actually better in wear, fit and value simply because in buying as many as 500,000 pairs of shoes at one time, we are able to demand higher grade materials and better workmanship. We do not believe that you can find better footwear in the country for the same low price as you pay in this sale. We do not buy poor shoes from the factories, therefore, we can not sell you poor shoes no matter how little you pay for them. No inferior shoes are to be found here *at any price.*

Seven Practical and Stylish Models

Ward's customers know that when we advertise special prices we mean exactly what we say. In this sale we assure you that these good substantial shoes are selling at prices away below their true value. There are seven practical and stylish models from which you will be able to easily make your selection.

"Fashion Queen" Model for Women

An excellent quality shoe for only $3.15. One of the very latest style slippers for this Spring, and certainly a remarkable value at our low price.

The "Roamer" Model Walking Oxford

The price of $2.98 is certainly much less than you would ordinarily expect to pay for a Genuine Kid Oxford that possesses all the style and comfort of the "Roamer."

A Shoe Built for Comfort

In our "Restful" comfort oxford we combine foot-ease with style. This shoe will appeal greatly to women with sensitive feet or those who are on their feet much of the time, such as nurses and housewives.

Special Work Shoe Bargain

Notice the value that we are offering in our "Civilian" model work shoe at $3.49. It is made over a Munson Army last with a special turned and treated sole and insole. It is as flexible as a woman's comfort shoe, yet has good weight.

The "Aristocrat" Model

As the men's style feature of this sale, we take pride in offering our "Aristocrat" model, made from strong, brown leather, with a Genuine Goodyear Welt Sole at a price about $2.00 less than you would ordinarily expect to pay for a shoe with the workmanship and style features that you will find in this shoe.

"Elk Scout" Model

There are many men who prefer this style shoe because it has no seams to bind the ball of the foot and provides plenty of toe room for comfort. The "Elk Scout" has soles of Genuine Chrome Tanned Leather, the strongest and best wearing leather ever made. It is a fine light weight work shoe, that will give exceptional wear for our low price of $2.49 a pair.

Make Your Saving Now

We want you to convince yourself that you do not have to pay fancy prices to get stylish, long wearing shoes—when you buy at Ward's. Order as many pairs as you like—without any risk. Try these shoes on in your own home. Notice the fine workmanship, excellent leather, correct style—and feel how well they fit and how comfortable. Show them to your friends, and then judge the true value.

Three Pairs for the Usual Cost of Two

After carefully examining these shoes, if you do not consider that they are worth at least one-third more than our low prices—if you do not decide these are the best shoes you ever saw for the money—send them right back to Montgomery Ward & Co. All of your money, including postage both ways, will be promptly refunded. No offer could possibly be fairer. And remember, this offer is backed by a house with a reputation for 52 years of fair and honest dealing.

"EARLY in February, 1923, I visited two of the leading shoe factories in the East—factories known the world over for making high grade shoes for men and women.

"These factories were located right in the heart of the shoe making district, where living expenses were not so high, and it was not necessary to pay excessive labor costs.

"It was during the 'slack season' when shoe factories were not running to full capacity—a very good time to buy well made shoes at the very lowest prices.

"I met the factory owners and told them I wanted to buy a large quantity of shoes at very low prices—without reducing the quality in any way. I told them that to make this deal they would have to figure everything down to 'rock bottom.' They agreed to co-operate with us in every way possible to help us conduct the greatest shoe sale in Ward's 52 years of business history.

How We Brought Down the Costs

"One of these manufacturers owned and operated one of the largest and finest leather tanneries in the world. He had in his warehouses thousands of hides that he had bought months before at prices fully 25% under their true value. We were assured of this large supply of high grade leather at a big saving. By using this and other fine leathers bought at a low price—by operating the factories to full capacity during the 'slack season'—thereby keeping men and machines busy, and by making such a large quantity of shoes of each style, the cost could be reduced to a very low figure without lowering quality in any way. Here was an opportunity to save hundreds of thousands of dollars for Ward's shoe customers. Inside of twenty-four hours I had closed our first contract for 500,000 pairs of substantial well made shoes.

Ward's Special Spring and Summer Sale

"That first 500,000 pairs were sold in our sale in the last Fall Catalogue. This was, as far as we know the greatest shoe sale ever held anywhere—and we saved our customers about half a million dollars. We have convinced the manufacturers that Ward's buy more shoes from outside factories than any firm in the country, and are, therefore entitled to the lowest prices. So we have decided to hold the same kind of a sale in this catalogue, giving our customers an opportunity to buy their Spring and Summer shoes at equally low prices.

"We have made a contract with these same shoe factories for another 500,000 pairs of shoes in the seven styles shown on the opposite page. By installing special equipment to take care of our business, the manufacturers are able to give us better workmanship than ever before, at prices just as low as last Fall. In all of my 26 years experience in the shoe business, I have never seen greater values.

Our Savings Are Your Savings

"It is a rule at Ward's that all savings must be passed along to our customers—and that is exactly what we are doing in this sale.

"If you ever bought shoes from Ward's you know that we never sacrifice quality just for the sake of making low prices. Every one of these shoes is made with high class workmanship, from solid leather—and at Ward's solid leather means that leather, and leather only, is used for uppers, vamps and soles. No paper or leather composition is used in making these important parts. That is why Ward's shoes wear so well.

You Can Depend on Ward's Quality

"You may not know the difference between grain leather or split leather. You may not be able to tell the difference between oak tanned sole leather and the cheaper fiber. You can not be expected to detect these differences in materials. You don't have to be able to when you buy your shoes from Ward's, where high quality standards are always lived up to. You can order from this catalogue with the fullest confidence.

"There is one rule at Ward's that will stand as long as the house stands. When it comes to a question of a few cents more profit or a few cents more of good shoe value—the shoe always wins. We do not claim to be the only people selling good shoes; but we doubt if you can find anywhere in this country such good shoes as those shown on the next page, at prices so low."

What Our Customers Say About Ward's Shoes

Comfortable Fit, First in Many Years

"My Comfort Oxfords came this morning and I am well pleased with them. They fit me and are comfortable. That is something I have not been able to say in many, many years. I have a short, wide foot. Shoe salesmen insist on giving me a long narrow shoe. The result is a shoe that is soon out of shape, and one neither has good looking nor comfortable shoes. That is not true when I buy shoes from Ward's."

Mrs. Mira Mills, Denver, Col.

The Best Shoes She Ever Wore

"Upon the advice of a friend I ordered a pair of shoes from you. They are the best shoes I ever wore in my life, and the easiest on my feet.

I take pleasure in recommending your goods to the public. Anyone having dealings with Ward's will be treated in an honest way, and you have fine goods in every respect."

Mrs. Martha Roberts, Mt. Victory, Ky.

Shoes That Wore a Year and a Half

"Three years ago, when prices were high, I could not buy good shoes in the stores for less than $8 to $10. Looking through your catalogue I found a pair for only $4.39. I wore them fully a year and a half, and would be wearing them yet, but I gave them to a friend. The shoes were built for service. Made of fine leather, and they stood the weather, rain or shine."

E. E. Schlavin, Wrenshall, Minn.

Wear Three Times as Long as $7.00 Shoes

"I am still wearing a pair of work shoes bought from you 10 months ago for $2.48. They are still in fairly good condition. These shoes have already given me three times the service I formerly got from $7 shoes bought locally. Have been dealing with Montgomery Ward & Co. for 20 years, and I never received faulty or inferior goods."

Chas. W. McDowell, Morgantown, W. Va.

Still Good After Five Months Wear

"I feel that I can always do better when I order my shoes from Ward's. On October first of last year I ordered a pair of your work shoes. This is March 3d, and am still wearing them. They are still good shoes, after more than five months wear. I can say one thing—if you want to deal with honest, square people, Montgomery Ward & Co. is the place."

Walter J. Parson, Corinth, Miss.

Big Savings on Fresh Merchandise

"I received my shoes and they fit fine. I intend to continue sending you orders. Your firm is absolutely the first and only mail order house that could fit my feet with a pair of shoes.

I have found many advantages in ordering from Montgomery Ward & Co. by mail. Your firm affords me big savings in money and your goods are not shelf worn."

F. S. Geiner, Hamilton, Ohio.

What Genuine Goodyear Welt Means to You

The Goodyear Welt process of attaching a sole to the upper is founded entirely on the hand lasted, hand sewed and hand finished method. The Goodyear Welt process is generally recognized as being far superior in all the qualities which make a good shoe desirable. It makes the most durable and comfortable type of shoe.

Do not confuse Goodyear welt with Goodyear "stitched," as the latter is a cheap process and is quoted only to secure benefit from the Genuine Goodyear Welt process. Goodyear stitched is made without a welt and its use in descriptions is often misleading. At Ward's you get the Genuine Goodyear Welt, which has no equal.

We Know How a Boy Scuffs, Scrapes and Pounds His Shoes—So We Made These Especially Durable

It makes a big difference in the family shoe bill when you must buy several extra pairs of Shoes a year for your boy. Every mother knows how boys will wear out their shoes. We know that, too, and therefore have made it a special point to have the manufacturers put heavier, stronger soles on all our boys' shoes. Also stronger upper leather, stronger linings—yes, stronger from top to toe. No matter which shoes you select for him—no matter what price you pay—if you buy them from Ward's he will need fewer pairs.

In other words, the least rvice you can expect from these shoes is x months everyday wear. Many of our stomers tell us they last much longer.

It is a remarkable achievement to build a work shoe that will stand up under the constant wear of the outdoor workman, day after day, for six full months. However, year after year, for 15 years, we have been building this shoe; and, by maintaining the highest standard of wearing quality which the leather and shoe manufacturing business has to offer, practically all of these shoes outwear the guarantee of six months.

Our Customers Have Bought Over 400,000 Pairs in 5 Years

It would take several months r the average size shoe factory to ake 400,000 pairs of these work oes, even if they devoted their ntire force and factory to the aking of this one shoe only. By lling such an enormous quantity these shoes year after year we e able to offer them to our cus-mers at this low price, which is ose to $2 below their usual retail ice. Our customers always re-ive the benefit of the savings we ake by large purchases.

From Mr. A. J. Miller
"I bought a pair of your six months guaranteed Shoes some time ago. I have worn them 17 months and they will last two years, without any doubt. I can say they are the best pair of shoes for the money I ever bought."
Amos J. Miller,
Canary Springs, Kan.
Printed with Mr. Miller's Permission

Make a careful study of the illustration shown here, and you will find these remarkable work shoes are made of genuine leather from top to toe, freshly tanned to insure longest wear. For 15 years we have been building this work shoe; and we can, unhesitatingly, guarantee every pair to wear six months. Read the letter printed herewith, from Mr. A. J. Miller, Canary Springs, Kan. He has worn a pair for 17 months and they are still good.

Big Values in Canvas Rubber Sole Footwear

Economical to Buy—Comfortable to Wear

Hot weather is always trying on the feet. A good way to lessen the strain and to keep your feet comfortable and cool, is to wear canvas footwear with rubber soles. The lightness of Canvas Shoes will bring barefoot comfort to your feet. Many men, women, boys and girls wear them every day all summer because of the extreme ease with which they fit their feet; and they always look neat.

Consider the low price of these Canvas Shoes and you will at once realize it is genuine economy to wear them all summer for work as well as play. If you play basketball, tennis or golf; if you enjoy picnics or a hike into the country; if your feet are tender and you wish to wear them around the house, you will find a style here exactly suited for your purpose, at a remarkably low price. Sizes for everybody in the family.

For Boys in This Style See Page 294

Made in the most modern and largest rubber factories in the country, from only the freshest live rubber. You are sure of quality.

To pay a low price for an article is not economical unless you can rely on the quality. When you order a pair of Ward's Arctics or Boots, you can expect to receive the one thing that insures full value for your money — Quality. We are always striving to save money for our customers by giving them better quality and in our rubber footwear we believe we have more than achieved this aim.

Men's Six Buckle Arctic

$4.45

Red Fiber Duck Uppers Clean Easily—Double Soles and Heels for Extremely Long Wear

One of our best and most popular Arctics for farmers and outdoor workers. At the price we ask it represents great value and will surely save you at least a dollar. Six-buckle top is practically the same height as a short boot. Made from red fiber duck which may be cleaned in a moment. The warm fleece lining will keep your feet comfortable in cold weather. Heavy, double soles and heels will give long wear under the hardest service. May be pulled on or kicked off easily, yet the uppers fit the legs snugly when they are buckled. A popular arctic that will give you genuine satisfaction in every way. To be worn over shoes.

Patent Pressure Process High Grade Rubber Boots

Wear Them and You'll Need Fewer Pairs

Men's and Boys' Short, Storm King or Hip Boots

Patent Pressure Process Rubber Boots are known for the extremely long service they give under the most severe conditions. The heavy rubber soles and heels are cured and strengthened by the most advanced method of vulcanizing. Reinforced and strengthened where the strain is greatest. The Patent Pressure Process makes these boots the best you can buy, and does to rubber what tempering does to steel. Highly recommended for their superior quality. No half sizes.

Low Priced Canton Flannel

Only by purchasing a great quantity of these sturdy Gloves for cash are we able to make such a low price. The manufacturer had to dispose of them quickly so we paid cash and took advantage of the big saving which we are passing on to our customers. These gloves are made of heavy seven and one-half ounce pearl gray canton flannel with the nap on inside. The elastic blue knit wrist fits snugly and keeps out the wind and cold. Full size and well made. An order for six or a dozen pairs will convince you that the value is exceptional—even greater than the usual big value you receive from Ward's.

New No Wrinkle Collars
The Very Latest in Appearance—Comfort—Economy

You want the smart, dressy appearance that ordinarily goes with a stiff collar, but you want comfort as well. With the new No Wrinkle Collar you can have both. Not only do these collars look well but they wear longer, because it is not necessary to use starch in laundering them. Then too, it is economy to launder collars at home, and these are as easy to wash as a linen handkerchief. They are packed in individual glassine envelopes, with three in a box. They reach you fresh and clean. For convenience, many men buy them in lots of six or more. Choose the style you like the best and order today.

Ward's Greatest Men's Suit Bargains

MONTHS ago we found one of the leading woolen mills with a tremendous overstock of 430,000 yards of Genuine Stillson Suiting—100 per cent Pure Wool—that had to be turned into cash immediately.

In such a large quantity, this material was hard to dispose of quickly. Always on the lookout for such bargains, we tested this material in our own laboratories—and made a spot cash offer for the entire 430,000 yards. The material was ours at a price that would not pay today's cost of the raw wool alone—a price just about one-third of what the same material would cost if we bought it now.

Ward's Special Suit Offer

We have already held three great sales of Stillson Suits. In each sale the demand for these suits has been so great that our factories, working night and day, could not make them fast enough. Thousands of our customers have been unable to get their Stillson Suits, as we simply could not fill all the orders. So we have decided to hold another big sale this Spring. We have selected the lighter weights of this Genuine Stillson Serge—weights suitable for spring and summer wear. We are again offering this same wonderful suit bargain—made from 100 per cent Pure Wool Stillson Serge, with the same one year guarantee, at the same low price as before—$17.85.

Guaranteed to Wear One Full Year

This genuine Stillson Serge is one of the best wearing materials that any man could ever ask for. It makes up into a comfortable, medium weight suit that may be worn all year round if desired. **We guarantee it to wear one full year.** Firmly and closely woven, yet soft in texture. Will hold its shape without frequent pressing. Suitable for business or all around wear. You have your choice of navy blue, dark brown or dark gray—in two styles, one for men and one for young men. In all of our 52 years of business we have never offered greater suit bargains than the suits on this page.

To make sure that these suits will be as good inside as they are outside, we have bought big supplies of guaranteed Serge lining—canvas, haircloth and padding. All of this material has been sent to our own tailoring shops to be made up into these fine suits which we are offering to you for less than half their actual value.

You Should Have One of These Suits

If you could only see the stylish appearance of these fine suits, feel the material with your own hands, note the fine workmanship and all silk sewing, we know you would want one of them. We want you to order yours today without any risk whatever. Try it on in your own home. Judge the quality of material and workmanship for yourself.

Then, if you do not decide that this suit is worth at least twice what we ask for it—put it in the box and send it back to Montgomery Ward & Co.; and all of your money will be promptly refunded. Or, you may take this suit and **wear it for one full year.** If the Stillson Serge wears out in that time, you will not be out one single penny. Remember, this offer is backed by 52 years of Fair Dealing.

Do Not Judge Quality by Low Price

It is not low price that sells Stillson Suits—because suits can be made to sell at any price. It is value and real honest worth that sells them. Quality is built right into these suits from start to finish. There is nothing cheap about them—as the fine silk sewing, excellent material and serge lining will prove to you.

Genuine Stillson Suits Are Sold Only by Montgomery Ward & Co.

During the past fifteen months **we have sold more than 75,000 Stillson Suits.** Every suit has made a friend. They have become famous all over the country for the long wear and great satisfaction they give. Customers have come to realize that a Genuine Stillson Suit at $17.85 is the greatest suit bargain that has ever been offered to them. And we want you to remember one thing: **The only Genuine Stillson Suits in the world are sold by Montgomery Ward & Co.** We ask you to compare these suits, point by point, with any other suits selling at anywhere near our price. Compare the material, interior construction, all silk sewing, and one year's guaranteed wear. Prove to your own satisfaction that this is the greatest suit bargain that you could secure **anywhere.** When you buy a Genuine Stillson Suit, in the coat you will find the Stillson label.

What This Trade Mark Means to You

This label on a suit means that the suit is made out of Genuine Stillson, 100 per cent Pure Wool material, sewed with silk thread and made for durability. It is your assurance of long wear that has made Stillson Suits the greatest selling suits in the world today.

Correct Model for Men

This Genuine Stillson Suit is made in the popular three-button sack model—a medium weight suitable for year round wear. It is guaranteed to wear one full year. Tailored in our own shops, and great attention has been given to details. Sewed throughout with silk thread. Coat will hold its shape because of the canvas and haircloth interlining. Coat is **full lined with guaranteed serge,** and the sleeves are lined with good grade twill. Collar will hug the neck snugly and the lapels will lay smoothly. The sagless pockets are reinforced and all seams are strongly sewed and bound to guard against ripping and to prevent raveling. Pockets, belt loops and all strain points are bar tacked. The material is 100 per cent Pure Wool, of fine even texture, and will not shrink or fade. Vest is the regulation five-button style, with four pockets. Trousers are well made, with reinforced crotch, and are furnished with plain bottoms only. With this suit you are assured a perfect and comfortable fit.

All We Claim for It

Special Bargain All Wool Worsted Suit

For months we searched for a material that would stand up under the rough wear that boys give their clothes. Finally we found it—Genuine Worsted, 100 per cent Pure Wool, the same kind of material the Government used to make officers' uniforms. After testing samples and finding it of the very finest quality, we bought a large quantity of this material at a very low price, and had thousands of these suits made in a leading boys' suit factory during the dull season, to keep the cost down. That is why Ward's can sell this suit for less than today's cost of the material alone—a price **less than half** the actual value.

Remember—low price alone does not make a suit bargain, material and workmanship are just as important. This suit is made from one of the finest materials we ever offered in a boys' suit.

It will wear like iron and will hold its shape. The color is olive drab, which is very practical for boys' suits because it does not show dust and dirt so easily. Notice these special features:

1. **100 per cent Pure Virgin Wool.**
2. **Double sewed seat and inseams.**
3. **Large, roomy, strong pockets.**
4. **Ivory buttons, sewed on to stay.**
5. **Seams will not ravel.**
6. **Strong, durable coat and sleeve lining.**
7. **Cut full and roomy.**
8. **Closely woven for warmth.**
9. **Will not shrink or fade.**

Send for one of these suits now. If you do not consider it the greatest suit bargain you ever saw—send it back to us, and all of your money, including postage will be refunded to you. Surely no offer could be fairer. At our low price, these suits will sell quickly. We suggest you send your order early, so you will be sure to get one at this special saving.

Double Seat—Double Knees Double Elbows A Wonder Value

In offering these All Wool Suits for your boy; we assure him a fabric and style he will be happy to wear. To you, we promise maximum service because of the dependable materials and workmanship used. We've made them as strong as we know how, so there is much more wear than in many others selling at higher prices.

At the seat, knees and elbows—the places where most suits burst out first—there are two thicknesses of material. These reinforcements are so carefully concealed that the only way you and your boy will know they are there is by the extra wear. The coat is lined with guaranteed serge, and the pockets—a detail you should not overlook in choosing youthful clothes—are extra stout. The knickerbockers you know are always full lined if it's an All Wool suit that comes from Ward's. Let the boy select the color; you will find he has a decided preference. These Boys' Suits Will Wear Longer

$9.95 Genuine Stillson Serge

$8.95 All Wool Herringbone Worsted

The fine, durable material in these boys' suits has been thoroughly tested in our laboratories for strength and wearing quality. By actual test this cloth is more than three times as strong as the average material used in boys' suits selling at anywhere near our price. Naturally, these suits will wear like iron.

"Hyde Park" Model Made from Genuine Stillson Serge

The biggest feature of this Suit is the fine material—Genuine Stillson Serge—100 per cent Pure Wool. It is the same durable material that has made Ward's Stillson Suits for men the talk of the whole country. Carefully tailored in our own shops. Seat, crotch and inseams are double sewed and taped. All seams are strongly sewed so they will not ravel. Suit is sewed with silk thread. All pockets and strain points are strongly bar-tacked to guard against ripping. Coat lining is of guaranteed serge, with canvas interlining, so it will hold its shape. Pocketing is of heavy, substantial material, just the same as is used in a man's suit. Knickers are full lined for added wear, with strong waistbands.

A fine school suit because of its excellent wearing qualities and fine appearance. The stylish Norfolk model with its four big coat pockets with button down flaps and all around belt is just what most boys prefer. For color, you have your choice of attractive dark brown or rich navy blue.

These suits are just as great values as the men's Stillson Suits shown on Page 204. We have not cheapened these suits in any way. Our low price is simply the result of our great purchase of this material, and producing these suits in our own tailoring shops to get the cost down to rock bottom.

Why We Recommend These Suits for Your Boy

1. Made from men's suit material.
2. Strong and durable. Made for the husky, active boy who is hard on his clothes. Strongly sewed.
3. Comfortable, warm, stylish and good looking.
4. They are the best suits we ever saw for the money.

The Manager of our Boys' Clothing Department is a man who believes that boys are entitled to the same quality of clothes that men wear.

For the past year he has been working to make it possible for us to offer our customers just that kind of clothes for their boys. These boys' suits are made out of the same durable material used in our men's suits—tailored in the same substantial manner, with the same careful workmanship. We know that if you should go to a big city clothing store, you could pay $18 to $20 and get boys' suits containing men's suit material and workmanship; but, to the best of our knowledge, these features have never been built into boys' suits selling at anywhere near our low prices.

What Makes a Boy's Suit Wear?

First of all, we know that husky, active boys are hard on their clothes. One of mother's biggest problems is to find, at a reasonable price, a suit that will give the wear that she expects.

The wearing quality of any boy's suit depends entirely upon the grade of the material used and the way it is put together. Even the finest materials will not stand up unless they are properly tailored and strongly sewed. The material used in these two boys' suits is the most durable that we have ever seen for boys' clothes—and the tailoring is in keeping with the quality of the material.

Genuine Stillson Serge

The "Hyde Park" model is made from Genuine Stillson Serge—the very same kind of material that we have used in our men's Stillson Suits, of which we have sold many thousands during the past fifteen months. Everyone who ever wore one of them knows that Stillson Serge is one of the best wearing materials that anyone could ask for in a suit.

The "Hyde Park" model is made in our own tailoring shops, specially equipped to make boys' clothing. The tailoring is done by the most careful workers, so that we are sure to get the kind of workmanship we must have in a Genuine Stillson Suit.

A Timely Purchase

For the "Avondale" model we have selected an exclusive material that is 100 per cent Pure Wool, slightly lighter in weight than Stillson and of a different weave—a fine material for a long wearing suit for boys. We were fortunate enough to find a mill that had made up a large quantity of this special material during the early winter months to keep their force busy. Lack of warehouse space forced them to dispose of this material at a sacrifice, and we bought it at a price actually less than manufacturing cost—a price just about half its true value.

Fine, Careful Workmanship

In these two suits we have not been satisfied merely to use the most durable materials we could find. These suits had to be carefully made—cut full and roomy. It is an actual fact that we have put more than the usual amount of cloth in these suits, so that they will fit your boy better and be more comfortable. Coat Linings are of guaranteed serge. All pockets and strain points are strongly sewed and bar-tacked to guard against ripping. The knickers are full lined for added wear, have double sewed and taped seats, crotches and inseams.

Just a Word About Prices

Low price alone does not make a suit bargain—materials and workmanship are just as important. So do not judge the quality of these suits by their low prices. These are the kind of suits for which you would expect to pay from $18 to $20 in the average store. Suits usually offered at our price would be made from lighter material, which naturally would not wear so long. We do not claim to be the only house selling good clothes, but we doubt if you can find anywhere suits nearly as good as these shown on this page,—at prices so low.

Size Scale for Boys' Suits

Age, years.....	8	9	10	11	12	13	14	15	16	17	18
Chest, inches....	26¼	27	27¾	28½	29¼	30	30¾	31½	32¼	33	34

Always state weight and height as well as age. To find correct chest measurement, place a tape measure all around the chest, over blouse, close up under the arms, and over shoulder blades in back. Compare with size scale to find what age suit will fit your boy

"Avondale" Model Made from All Wool Herringbone Worsted

Never before have we offered a boy's Suit made from this fine All Wool herringbone worsted—and we do not believe that you ever had an opportunity to buy one anywhere. One hundred per cent Pure Wool yarns have been woven into this high quality material, with the popular herringbone effect—the true beauty of which is impossible to show in a picture.

This suit is cut full and roomy, to allow freedom of movement. The three button, single breasted style is very attractive, with all around belt and three set in coat pockets, one of which has a button down flap. The back of the coat has a yoke, with two plaits. Knickers have two side pockets, one hip pocket and one watch pocket. The all around belt on the coat fastens with two buttons.

The fine tailoring in this suit is in keepin with the fine quality of the material. The coat has a guaranteed serge lining. Interlined with strong canvas so that the coat will hold its shape. The collar will hug the neck snugly. All seams are strongly sewed to guard against ripping. Seat, crotch and inseams are double sewed and taped. Pockets and all strain points are strongly reinforced and bar tacked to stand the hard service that boys give their clothes. Knickers are full lined for added wear. Sizes 8 to 12 have extension waistband which gives with every bend of the body. Sizes 13 to 17 have waistband similar to men's trousers. You have your choice of two colors—an attractive brown mixture and a very popular mixture of blue and olive.

If you like to have your boy well dressed at a small expense, and if you want a suit that will give real honest wear, you can do no better than to order one of these fine suits of herringbone worsted.

Descriptions of Suits Pictured on Opposite Page
Some Are Made in More Than One Color

YOUR little boy would enjoy wearing any of these very pretty Wash Suits. Every one of them is absolutely **fast color**, for they are yarn dyed—not one print cloth is used. We guarantee them not only in color, but in quality of material and careful, skillful workmanship as well. While it is quite true that all of these wash suits are priced remarkably low, do not forget our unchanging policy to sell only dependable, thoroughly serviceable merchandise—the better qualities. This alone assures you that the very lowest priced wash suit shown on the opposite page is a splendid value. And the others are proportionately good. We are proud of them. They will please you in appearance and wear. **When ordering, be sure to state article number and size.**

Blue Denim Allovers

Double Stitched Double Seat Double Knee

98¢

Dress the boy for play like men dress for heavy, rough outdoor work. Then you need not worry about rips and tears or dirt and mud. Look at the illustration of these medium weight Allovers. Consider the **double seat, the double knees, the double stitching.** The only way we could make them to give better wear would be to make them heavier, and then they would be too heavy for your little fellow's comfort.

Clothe your boy in these sturdy garments, made from fast color indigo blue denim with fast color red trimming. He will need fewer clothes and there will always be much less mending to do. Made in the drop seat style.

Plain Bottom Trousers Only

Model 601 Virgin Wool Serge

Navy Blue or Dark Brown

Suits made in our Model 601 are certain to have the approval of men and young men who fully realize the importance of being well dressed. To make the style permanent, the coat is durably lined, the pockets staye i at the corners and stayed to the inter-lining to prevent them from sagging. Regular five-button vest; cuff bottom style trousers. All seams are strongly sewed and every detail carefully finished.

The fabric used in the suit shown above is All Virgin Wool serge, one of the finest weaves. It makes up into a dressy, trim suit equally suitable for dress or business wear. A wise selection for your new suit. It is in every way typical of the quality of the materials pictured to the right, which also are made up in this model. Like all the other patterns shown on this page, it is an unusual value, too.

Bargain Value Gray Worsted Looks Well; Fits Well and Wears Well $16.75

While low in price, the Suits shown on this page are styles you will be proud to wear. They are specially designed for everyday, all around service, and are tailored so that they will hold their shape throughout the life of the fabric. Every one is an unusual value and no matter which you choose you are sure to be well satisfied with your selection. They are the kind of value men have learned to expect in clothing from Ward's.

This conservative model is one that you may depend upon for long service, and is one of the biggest values on this page of specials. It is made from a substantial, firmly woven worsted material, about 50 per cent wool, with a gray check and stripe pattern. The coat is full twill lined, and the style is "tailored in" to stay. Vest is regular five-button style; trousers have plain bottoms. For the price, we do not believe you can possibly find a better value.

Cool Clothes for Summer Comfort

$16.50 Stylish Tan Poplin Extra Style and Quality

Summer is more enjoyable when you are clothed in a light weight, comfortable Suit such as this stylish model of tan poplin. You will be well dressed, too, for the light color suits do look more appropriate in hot weather. The material is solid tan color and is woven so that it will withstand much hard wear. Carefully tailored in every part, with a satin lining in the yoke of the coat, and patch pockets. Cuff bottom trousers, favored alike by young men and older men. You may count on receiving exceptional value when you order this suit.

$4.45 Tan Crash Suit Washable—Low Priced

You can be more comfortable and save money, too, by wearing this low priced summer weight Suit of tan crash during the hot months, and saving your more expensive clothing until cooler weather. The light tan color looks and feels mighty cool and airy, and when it becomes soiled it may be laundered to restore its freshness. The coat is made so it will retain its shape and is unlined for greatest comfort. Patch pockets. Trousers are cuff bottom style. Because the price is so low, we recommend that you order two of these suits. Then you can have one laundered and ready for wear at any time. The value, judged by quality and price, is unusual.

Style and Comfort

Dress for comfort—in summer as well as winter. A light weight Suit is just as necessary in hot weather as an overcoat in a snow storm. With the suits shown on this page, you can be stylishly dressed too—because they are just as good looking as many that are made from heavier fabrics.

But be sure your summer suit is made well. Suits of the lighter materials lose their shape more easily unless they are carefully tailored and the seams held in place by extra reinforcements. Order your summer suit from Ward's, and you can be sure you will obtain a correctly tailored suit that will hold its stylish lines and retain its good appearance.

$11.95 Genuine Palm Beach Gray, Tan or Navy Blue

Genuine Palm Beach cloth is probably the best known of all the materials for hot weather Suits. It is light weight, the weave insures long service and the colors are fast. This well tailored, patch pocket model is offered in three of the most popular colors, and priced at less than a suit of this famous fabric, usually sells for. Cuff bottom trousers.

$15.85 All Wool Navy Blue Serge Two-Piece Summer Suit

Because All Wool navy blue serge is so easy to keep looking fresh and new, and because it wears so well, many men prefer to wear a Suit of this material all the year around. But you don't want to sacrifice comfort, so we designed this model especially for hot weather wear. It's just as dressy as any other blue serge suit, but the coat is unlined to make it light and cool. It is carefully tailored by skilled workmen, so it will hold its shape as well as a full lined coat. The All Wool serge fabric is one of the better qualities, durably woven and smooth finished. Cuff bottom trousers, suitable for men of all ages. Ward's light weight suits are just as great values as our other clothing for men, so you may order and depend on receiving a lot for your money.

Striped Dark Brown Genuine Palm Beach Suit $13.75

This season you can have a Suit of genuine Palm Beach cloth in an attractive striped pattern. For several years, suits of this material in plain colors have been among the most popular for summer wear. The fabric from which this suit is made is just the same high quality and now offered in striped patterns to Ward's customers for the first time. The ground is a deep shade of brown, and the pencil stripes are harmonizing dark olive. Especially a style for the younger man. Coat is made with patch pockets and with an inverted plait in back; and is unlined. Cuff bottom trousers.

The "Toreador" $19.75
Jazz Model
All Wool Brown Cassimere

For the youth who likes to wear clothes that are somewhat different, we recommend the Toreador. It's a spirited style, with plenty of dash and pep that characterize the young fellows of today. The plaited back, fancy lapels and pocket flaps; the low-cut, full dress style vest; the wide bell bottom cuffless trousers—these are the features that make this suit stand out from all the rest.

The All Wool fabric is woven in a small brown check pattern, with a dark maroon overplaid. Great care has been taken in the tailoring to make every detail retain its stylish appearance. Coat is half lined with alpaca.

$5.75 Hiking Breeches of Serviceable Bedford Cord

Bedford cord cloth is especially suited for high grade sport clothing. The texture is very similar to that of corduroy, except that the cords are more solid, and it has a dull, drab finish. It is woven from fine quality cotton, and both the appearance and wear are certain to meet with your approval.

The double seat and knee of these Hiking Breeches make them hardest to wear through at the points where the strain is greatest. Tailored to fit comfortably and trimly. Order coat 42 F 5827 to wear with these breeches. Both are values of unusual worth.

EVEN SIZES: Waist, 28 to 42 inches.

State size wanted.

$4.45 Bedford Cord Trousers for General Wear

No doubt you have learned to expect unusually good value when you order from Ward's. All our clothing for work and sport wear is offered with confidence that the price and the quality combine to give you the most possible for your money. These garments of Bedford cord are distinctly among the better grades of sport clothes. The fabric, although comparatively new, has proved to be extremely serviceable, and slow to show signs of wear.

The Trousers shown here are made in the regular cuff bottom style, with five big pockets and extra stout seams and reinforcements. Cut over our own patterns, which permit all the room you require for every movement. Coat 42 F 5827 matches these trousers. You need both.

EVEN SIZES: Waist, 30 to 42 inches. Inseam, 29 to 34 inches.

Moleskin Outing Outfit

In line with our policy to offer better values than you ordinarily can find elsewhere, we are featuring these garments of moleskin cloth because they are genuine bargains.

Moleskin is one of the standard fabrics for sport and work clothing. It is one of the strongest materials, comparatively light weight, and so tightly woven as to be almost windproof. Its wide popularity is due to its great durability and wearing quality, and to the fact that soil does not show plainly on the dark brown color. You may depend on it for satisfactory service under all conditions.

Coat. The coat is made in the belted style with plaited back, and yoke. Four outside pockets with flaps. Carefully sewed and reinforced. Unlined.

Trousers. Trousers are regular cuff bottom style strongly sewed and reinforced throughout.

Breeches. Double seat and knee add extra wear to the breeches. Well proportioned. Stout seams.

EVEN SIZES: Coat—Chest, 36 to 44 inches. Trousers—Waist, 30 to 42 inches. Inseam, 29 to 34 inches. Breeches—Waist, 28 to 42 inches.

Practical Clothes for Sports or Work

You need clothes like these. We call them utility garments—and they are. As working clothes, these are among the best you can buy. Foremen, surveyors and others whose work is in the open, and who realize that appearance counts for a great deal, will be well pleased with the neat styles and trim lines.

For sports you will find them comfortable and practical. For hunting, fishing, motoring and camping, they are comfortable because they are made with lots of room to allow for every motion of body, legs and arms. They are practical because the fabrics are durable and the colors do not quickly show soil. Made the way you want them made—strongly sewed and reinforced. We have had them manufactured to our own specifications because our long years of experience have taught us what you like best.

These are big values too. Naturally you expect to receive your money's worth when you order from Ward's. And whether you order the highest priced or the lowest priced, you are sure of dependable quality and thorough workmanship.

Wear one of these suits this summer.

$1.69 Allovers for the Younger Boy—Denim or Khaki

A real boy can't be careful of his clothes during the summer vacation, but if he has a few suits of these Allovers, then mother need not worry about rips and tears and dirt and mud. They are made from two very durable materials—blue denim or khaki cloth, and are well reinforced and triple lock stitched. We take just as much pride in the way we make our work clothes for boys as the way we make them for men. These may be slipped on right over his other clothes, to protect them completely. By far the most practical garments for boys who want to spend most of the summer out of doors.

SIZES: 6 to 10 years.

$1.98 Khaki or Blue Denim Allovers

These Allovers cover the boy from neck to feet. Fine for summer wear and he can slip them on over his better clothes to protect them. Both khaki and denim fabrics are medium weight, durable and firmly woven. Your boy will like either color. Made with fly front and five pockets. Reinforced crotch and triple lock stitched seams are important features which give extra strength. Order a suit of each for your boy—one of khaki and one of denim. Both are especially good values at the low prices.

SIZES: 12 to 16 years.

Field Glasses and Telescopes

THE best Field Glasses and best Binoculars are imported from Europe. The average dealer is unable to buy in sufficient volume to allow him to sell at low prices. We go direct to the European markets and buy in such large quantities that we are able to sell them to you at prices as low and in some instances lower than most dealers pay.

A Field Glass or Binocular is almost indispensable on farm or ranch, especially in handling stock; and a most delightfully useful companion when attending athletic games and races or when touring. It will add to your enjoyment by bringing points of interest into closer view.

Lemaire Field Glass

A powerful Field Glass of the finest optical quality. The lenses are made of the best material and define objects clearly. The magnifying power is 5½ times.

Viewed through this glass an object 5½ miles distant will appear 1 mile away.

A very fine glass for use on land or sea.

Our Best Field Glass

A field glass of this high quality will give you many years of satisfactory service.

Size, extended, 7 inches; closed, 5⅝ inches. Diameter of objective lenses, 24 lignes (2⅛ inches). Made of very fine optical glass. Fine polished, black enamel finish. Extra quality, black morocco leather covering. Complete in serviceable carrying case with shoulder strap.

We Do Expert Watch Repairing

Your watch should not be allowed to run along for years without the attention of an expert watchmaker. If it is not cleaned and adjusted at reasonably frequent intervals, the delicate wearing parts will become ruined from lack of oil and the friction of dust and dirt.

Every watch should be cleaned and oiled at least once every two years by an expert. With this care your watch should—barring accidents—keep good time.

We maintain a Watch Repair Department, in which we have the very best workmen—men who know watches and how to repair them properly. Only the best materials are used.

When sending your watch to us for repairs, be sure that it is packed carefully in tissue paper or cloth and enclosed in a substantial box. **Send by insured parcel post or express.**

Immediately upon receipt of your watch, we will send you an estimate of the cost of repairing it. Two weeks time is required—after you have received our estimate—to properly repair, adjust and regulate your watch.

Our prices are lower than you usually pay elsewhere, and our work is guaranteed. You must be satisfied or we return your money.

You are protected when you buy Diamonds from Montgomery Ward & Co., as you know they are genuine and will reach you exactly as represented. Our guarantee stands now as always: "Satisfaction Guaranteed or Your Money Back." Every diamond is accompanied by Ward's written Special Diamond Guarantee.

Only good quality diamonds, perfectly cut, are permitted to enter our stocks. Our experts go right to the diamond centers of Europe—Antwerp and Amsterdam—and personally select every diamond we buy. They take into consideration every point that determines the value of a diamond. And every stone must come up to a certain high standard, or we do not consider it good enough to offer to our customers.

You Have 60 Days to Examine Diamond

Our special guarantee allows you 60 days to examine your diamond. If for any reason you decide to return it within 60 days of date of purchase, we will promptly refund the full price you have paid.

Money Refunded Within One Year

At any time within one year from date of purchase, we will refund the full purchase price less 10 per cent. For example: On a purchase of $100 we would refund $90 at any time within one year, if so desired.

Full Value in Exchange

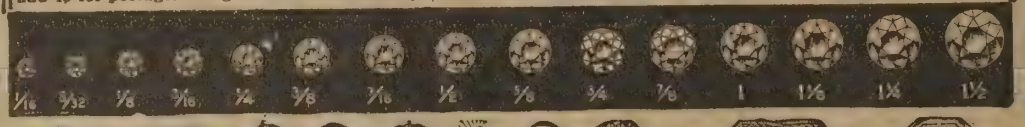
Within one year from purchase date, we allow the full price you paid in exchange for a more expensive diamond. Through our exchange plan, many customers in time are able to own much larger diamonds.

Whether you buy our First, Second or Third quality, you will receive full value for the amount you pay. Each quality represents unusual value at our prices. We believe our prices are much lower than those charged elsewhere for diamonds of equal quality. Our written guarantee pictured above is sent to you with every diamond. It fully protects you.

Our First Quality

Our First quality diamonds are carefully selected and are of excellent color. Perfectly cut and wonderfully brilliant. Anyone would be proud to possess diamonds of such splendid quality.

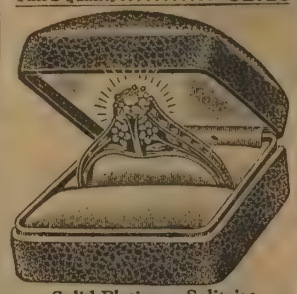
Our Second Quality



Our Second quality is only slightly different from our First quality. The color is just as good, but the cutting is not quite as fine. They represent special value at our low prices.

Our Third Quality

Our Third quality is not quite as good as our other qualities, but is free from objectionable flaws. There is nothing about the color or cutting which interferes with the brilliancy.



Diamonds under $100 sent by mail; over $100 sent by express if an express office is at your station—otherwise by registered mail. When diamonds are to be sent by mail, add 4¢ for postage. We guarantee safe delivery.

Be sure to state finger size when ordering rings. Instructions at bottom of page tell how to find the correct finger size. Illustrations show actual size. Chart below gives an idea of the various sizes of diamonds.

How to Find Finger Size

To Get Correct Size From an Old Ring

If you have an old ring that fits your finger, place it over these circles until you find the one the exact size of ring inside. The number inside the circle denotes your finger size. If your ring is smaller than one circle and larger than the next, order one-half size between. For a wedding ring or band ring order one-quarter size larger than the measure indicates.

Wrap a narrow strip of paper snugly around largest part of finger. Cut paper off so the ends just meet. Place it on the scale above, so one end of the slip just covers the black line at point A; the figure at the other end of the slip represents your finger size. If end of slip falls between two numbers, order one-half size larger than smaller number. For wedding or band ring order one-quarter size larger than actual finger size.

Black onyx Ring; 10-K green gold with 18-K white solid gold border; engraved. Set with a genuine diamond. SIZES: 3 to 7. **State size wanted.**

COMMUNITY PLATE

The Original and Genuine

In their admiration for Community designs, many people forget that this excellent silver plate is equally desirable for its wearing qualities. It is guaranteed to wear for fifty years. Every piece is heavily plated with pure silver, with additional layers at points of wear. This additional plating insures long wear.

Flannel Rolls Free

Flannel Rolls are given with teaspoons, dessert spoons, tablespoons, dinner knives, dinner forks, dessert knives and dessert forks. Other pieces are attractively packed in Community blue velvet lined gift cases.

Start a Community set now and fill it in piece by piece. All of these patterns are standard; you always can match them, and they are always in good style. You will have the satisfaction of knowing that you have the best.

Guaranteed for 50 Years

Community Plate is so widely and favorably known that this name on your silverware is accepted immediately as the mark of excellence. It is the choice of many who need not consider expense in selecting their silver. The prices quoted represent exceptional values. If for any reason any reduction in price is made, we will allow you the benefit of the lowest price at the time your order is received. We will refund the difference to you.

We Engrave Community Silver Free

Illustration of spoons shows styles of engraving most suitable. Grosvenor shows Old English style; Adam and Patrician show Script style. However, we will engrave the style you prefer on any of these three patterns. Bird of Paradise pattern is shown with style initial particularly suited to this beautiful design. State initial and style of lettering wanted. When ordering engraving to match silver you already have, be sure to send sample.

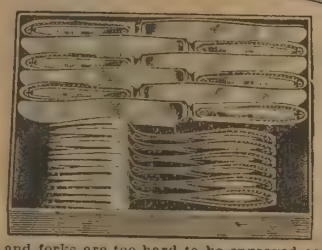
excellent quality Silverware is made by two of America's leading manufacturers. It is thoroughly dependable and guaranteed to give you many years of satisfactory service. High quality silver plate. In addition to the usual heavy plating of silver, every piece has an extra layer of silver on all the parts exposed to most wear. We will replace any piece any time it is not satisfactory. The Webster pattern is made by Simon L. and Geo. H. Rogers; the Lufbery and Ashland patterns by Wm. Rogers.



Ashland, Lufbery and Webster patterns are gray finish.

Our Guarantee

We will replace any piece any time it is not satisfactory, or return your money. We can make this binding guarantee because of the heavy plating of silver every piece has, plus the extra layer of pure silver on parts exposed to most wear.

Webster and Lufbery teaspoons show Script style initials; Ashland teaspoon the Old English style. We will engrave any initial on whatever pattern you choose. Script style for 3¢ a letter, or Old English style for 5¢ a letter. State initial wanted. Solid handle knives are too hard to engrave satisfactorily.
